\*Low precision; no estimate reported.

NOTE: Outpatient Mental Health Treatment/Counseling is defined as having received outpatient care for problems with emotions, nerves, or mental health. Respondents were not to include treatment for drug or alcohol use. Respondents with unknown treatment/counseling information are excluded. Due to revised editing of 2003 and 2004 outpatient mental health treatment/counseling data, these 2003 estimates may differ slightly from 2003 estimates published in prior NSDUH reports. See Section B.5.2 in Appendix B of the *Results from the 2004 National Survey on Drug Use and Health: National Findings*.

<sup>1</sup> Respondents could indicate multiple sources of payment; thus, these response categories are not mutually exclusive.
