Female 18-49	0	0	35	37	815	873

NOTE: To reflect more accurately the effects of the weighting process, standard errors (SEs) for assumed fixed population estimates (i.e., estimates forced to match U.S. Bureau of the Census population projections) are calculated differently from those that appear in prior NSDUH reports. Thus, the 2003 SEs presented here for these domains do not match those previously published.

¹ Estimates in the Total column are for all persons aged 18 or older, including those with unknown parole/supervised release status.

² Respondents were asked if they were on parole, supervised release, or other conditional release from prison during the past year.
