

UNDERAGE DRINKING PREVENTION NATIONAL MEDIA CAMPAIGN

WHAT PARENTS AND CAREGIVERS CAN DO TO HELP PREVENT UNDERAGE DRINKING¹

Be Aware of Factors That May Increase the Risk of a Child's Alcohol Use, Including:

- » Significant social transitions such as graduating to middle or high school or getting a driver's license;
- » A history of social and emotional problems;
- » Depression and other serious emotional problems;
- » A family history of alcoholism; and
- » Contact with peers involved in troubling activities.

Be a Positive Adult Role Model.

- » Stay away from alcohol in high-risk situations. For example, don't operate a vehicle when you've been drinking.
- » Get help if you think you have an alcohol-related problem.
- » Do not give alcohol to your children. Tell them that any alcohol in your home is off limits to them and to their friends.

Work With Schools, Communities, and the Government to Protect Children From Underage Alcohol Use by Ensuring That:

- » Schools and the community support and reward young people's decisions not to drink;
- » Schools and the community identify and intervene with children engaged in underage drinking early;
- » Rules about underage drinking are in place at home, at school, and in your community;
- » Agreements of acceptable behavior are established and well known, and applied consistently; and
- » Parties and social events at home and elsewhere don't permit underage drinking.

Support Your Children and Teens and Give Them Space to Grow.

- » Be involved in your children's lives.
- » Encourage your teens' growing independence, but set appropriate limits.
- » Make it easy for your children to share information about their lives.
- » Know where your children are, what they're doing, whom they're with, and whom they are friends with.
- » Make an effort to get to know the parents of your children's friends. Share your rules about not allowing alcohol use.
- » Find ways for your children to be involved in family life such as doing chores or caring for a younger sibling.
- » Set clear rules, including rules about alcohol use. Enforce the rules you set.
- » Help your teens find ways to have fun without alcohol.
- » Don't let your teens attend parties where alcohol is served. Make sure alcohol isn't available at teen parties in your own home.
- » Help your teens avoid dangerous situations such as riding in a car driven by someone who has been drinking.
- » Help your children get professional help if you're worried about their involvement with alcohol.
- » Create a pledge between yourself and your children that promises they won't drink alcohol.
