Moderate Mental Illness	906	689	703	553	49	48	149	88
Mild Mental Illness	1,165	1,004	915	733	88	114	161	158
No Mental Illness	1,964	1,945	1,381	1,511	475	334	98	97
<b>NO DEPENDENCE OR ABUSE</b>	27,038	27,602	26,097	26,654	618	464	321	465
Any Mental Illness	14,104	14,037	13,690	13,633	186	105	228	299
Serious Mental Illness	4,620	4,469	4,521	4,341	2	14	98	115
Moderate Mental Illness	3,846	4,106	3,725	3,995	63	22	58	89
Mild Mental Illness	5,637	5,462	5,443	5,298	122	70	73	94
No Mental Illness	12,934	13,565	12,407	13,021	432	359	93	166

\*Low precision; no estimate reported.

NOTE: Some 2010 estimates may differ from previously published estimates due to updates (see Section B.3 in Appendix B of the *Results from the 2011 National Survey on Drug Use and Health: Mental Health Findings*).

NOTE: Illicit Drugs include marijuana/hashish, cocaine (including crack), heroin, hallucinogens, inhalants, or prescription-type psychotherapeutics used nonmedically, including data from original methamphetamine questions but not including new methamphetamine items added in 2005 and 2006.

NOTE: Dependence or abuse is based on definitions found in the 4th edition of the *Diagnostic and Statistical Manual of Mental Disorders* (DSM-IV).

NOTE: Mental Illness is defined as having a diagnosable mental, behavioral, or emotional disorder, other than a developmental or substance use disorder that met the criteria found in the 4th edition of the *Diagnostic and Statistical Manual of Mental Disorders* (DSM-IV). Three categories of mental illness severity are defined based on the level of functional impairment: mild mental illness, moderate mental illness, and serious mental illness. Any mental illness includes persons in any of the three categories. Estimates for mental illness presented in this table may differ from previously published mental illness estimates because of revised estimation procedures. For details on the methodology, see the NSDUH short report titled *Revised Estimates of Mental Illness from the National Survey on Drug Use and Health* at <http://samhsa.gov/data/default.aspx>.

<sup>a</sup> Difference between estimate and 2011 estimate is statistically significant at the 0.05 level.

<sup>b</sup> Difference between estimate and 2011 estimate is statistically significant at the 0.01 level.

<sup>1</sup> Mental Health Treatment/Counseling is defined as having received inpatient care or outpatient care or having used prescription medication for problems with emotions, nerves, or mental health. Respondents were not to include treatment for drug or alcohol use. Respondents with unknown treatment/counseling information were excluded.

<sup>2</sup> Received Illicit Drug or Alcohol Treatment at a Specialty Facility refers to treatment received at a hospital (inpatient only), rehabilitation facility (inpatient or outpatient), or mental health center in order to reduce or stop drug or alcohol use, or for medical problems associated with drug or alcohol use.
