Note:

Are Client Counts Unduplicated? Duplicated between Hospitals and Community **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2014

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age None
 Gender None
 Race Hispanic - State Hospitals only
 Overall California's Client and Services Information system currently does not capture pregnancy status.

Table 2b

Age None
 Gender None
 Race State Hospitals collects Hispanic as a racial category and do not use a separate question for ethnicity.
 Overall None

California

URS Table Number	General Notes
5	The total number of consumers with Medicaid was underreported in FY 2013-2014 at the local provider level due to technical reasons. For FY 2014-2015 reporting there was no underreporting resulting in an increase in the total number of consumers with Medicaid funding only and a decrease in the total number of consumers with non-Medicaid funding.
6	The decreases in Average LOS of children discharged from State Hospitals & Average LOS of children (in facility < 1 year) who were state hospital residents at the end of the year are due to the single patient that was admitted (0 to 17 years old) was not discharged during the reporting period so the Length of Stay (LOS) for that patient wasn't calculated since there was no a discharge date.
11	Sample size/response rate: for adult and child family surveys, the number of surveys attempted, the number of contacts made, and response rate are not available.
15	The increase in the total number of consumers that were homeless or in shelters in FY 2014-2015 is due to a data reporting error in the FY2013-2014 data reported.
17	One of the local providers piloted a new treatment model from January 2014 through June 2014 which has increased of consumers receiving Illness Self Management services. This treatment model then began full implementation on July 1, 2014.
19A	The total number of persons surveyed or for whom criminal justice data are reported are not available.
19B	The total number of persons surveyed or for whom school attendance data are reported are not available.
