General Notes FY 2015

Georgia

URS Table Number	General Notes
All	Unless otherwise specified, data in all tables includes consumers served in the following settings: State hospital inpatient stays in Adult Mental Health and Secure (Forensics) programs. Data for hospital outpatients and non-admits (including 23-hour observation) is not included; however, hospital-operated community services are included with other community services. Authorizations for residential stays in Psychiatric Residential Treatment Facilities (PRTFs). Authorizations for community services for consumers having at least one authorization with Primary or Secondary Diagnostic Category of MH.
All	Age: unless otherwise specified the age reported is the consumer's age at the first date active in the state mental health system during the state fiscal year. Race: "More Than One Race Reported" includes Multi-Racial. "Race Not Available" includes "Other Single Race", "Unknown", and "not reported". Hispanic/Latino Origin: "Not available" includes "Unknown" and "not reported".
4	Table 4 reports data for community consumers only. Employment status reported in Table 4 is the latest available for the state fiscal year. Employment status is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. Employed includes Competitive Employment and Community Based Non-Competitive Employment. Unemployed includes Unemployed but Available for Work = Yes. "Not in Labor Force" includes Facility Based Non-Competitive Employment and Unemployed but Available for Work = No. "Not available" includes Not Available and Not Reported.
5A, 5B	Medicaid only includes any consumer in Table 2A for whom a Medicaid MRO/PRTF claim was paid, but no state service encounter was reported. Non-Medicaid Sources only includes any consumer in Table 2A for whom no Medicaid claim was paid, but a state service encounter was reported. People Served by Both Medicaid and Non-Medicaid includes any consumer in Table 2A for whom both a Medicaid claim was paid and a state service encounter was reported. Medicaid Status Not Available includes all the remaining consumers in Table 2A.
6	Community Programs: Consumers served at beginning of year includes any "Registration", "New Episode", or "Ongoing" request that was active on first day of fiscal year. Community consumers admitted during the report period were identified by "Registration" and "New Episode" requests which had a start date during the fiscal year.
6	Other Psychiatric Inpatients: The state began contracting with Private Psychiatric Inpatient Facilities and the data is maintained in a different database. It is not possible to incorporate these individuals into the overall consumers served count as there is no mechanism to unduplicated across systems.
6	Closure of a state hospital in FY2014 has reduced the total number of beds/admissions as reflected in the decrease in the total admissions to state hospitals during the year. Between FY14 and FY15, the Georgia Medicaid Authority moved Foster Care and Juvenile Justice covered lived from Medicaid FFS (previously covered by DBHDD), to a new managed care product (not covered by DBHDD). Thus reducing the total youth served by DBHDD, as reflected in the decrease in the total number of consumers served in residential treatment centers (RTCs) at the beginning of the year and the total admissions to RTCs.
8	DBHDD is implementing new assessment instruments (CANS/ANSA) requiring additional training to the provider network which has resulted in an increase in the total MHBG expenditures for non-direct service activities.
9, 11, 19A, 19B	Child & Adolescent Surveys - C&A Surveys using the YSS-F are required as part of participation in a Targeted Care Management program (CBAY) which totaled 134. In addition, 2000 mail surveys were sent at random with only 171 being returned.
9, 11, 19A, 19B	Survey data includes community consumers only.
12, 14A/B, 15A, 16 & 17	Community consumers may receive authorization for a core bundle of services using a simplified authorization request type called "Registration". On these authorization requests, consumers were assigned a diagnostic category of "Mental Health" but they were not assigned specific DSM diagnoses; therefore, consumers whose only request type active during the state fiscal year was Registration cannot be designated as SMI or SED. This yields reported counts and percentages of SMI/SED consumers that are artificially low because no "Registration-only" consumers are included. Such consumers could not be included in: Table 12 (SMI-SED percentages of total served and SMI-SED percentages with co-occurring substance abuse), Tables 14A/14B (total SMI-SED consumers served), Table 15A (total SMI-SED consumers served by treatment setting), Table 16 (SMI-SED consumers receiving specified services) and Table 17 (SMI consumers receiving specified services).

URS Table Number	General Notes
15	Table 15 reports data for community consumers only. Living Situation reported in Table 15 is the latest available for the state fiscal year. It is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. Residential Care includes living situations Residential Care and PRTF where the consumer's age was >= 18. Children's Residential Treatment includes living situations Residential Care and PRTF where the consumer's age was <18. Crisis Residence is not included among the response options for living situation in Georgia's information system. "Not available" includes living situation Not Reported.
16	Total unduplicated numbers of adults with SMI and total unduplicated number of children with SED includes only community consumers. See also note for tables 12, 14A, 14B, 15A,6, and 17.
16	The total number of consumers receiving family functional therapy reported for FY2014 contained an error. The correct number of consumers receiving this EBP service is 1,942. There is decrease in the total number of consumers receiving this services in FY2015 because the Georgia Medicaid Authority moved Foster Care and Juvenile Justice covered lived from Medicaid FFS (previously covered by DBHDD), to a new managed care product (not covered by DBHDD). Thus reducing the total youth served by DBHDD.
16	The State is under an ADA Settlement Agreement which stipulated additional funding to community services, specifically supported employment. This has resulted in an increase in the number of consumers receiving supported employment services.
16	Between FY14 and FY15, the Georgia Medicaid Authority moved Foster Care and Juvenile Justice covered lived from Medicaid FFS (previously covered by DBHDD, the SMHA, to a new managed care product (not covered by DBHDD). Thus reducing the total youth served by DBHDD and the total number of children with SED.
20A	This table presents duplicated counts of consumers discharged from a State hospital Adult Mental Health inpatient programs between 1/1/2014 - 12/31/2014, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race."
20B	This table presents duplicated counts of consumers discharged from a State hospital Forensic/Secure inpatient programs between 1/1/2014 - 12/31/2014, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race."
