Illinois

URS Table Number	General Notes
5A	The reduction in the number of consumers with non-Medicaid funding only and both Medicaid and non-Medicaid funding is impacted by the continued roll-out of managed care initiatives by the Illinois Medicaid agency.
6	The SMHA requires providers to re-enroll/re-register individuals every 6 months to maintain their eligibility for services. It would take an inordinate amount of effort to sort out the re-enrollments/registrations from the "true readmissions" based on gaps in service. Therefore only the unduplicated count has been reported.
8	DMH administration reallocated some dollars previously spent for administrative functions resulting in a decrease in the total MHBG expenditures for non-direct service activities.
15	The roll out of Medicaid Managed Care may be having an impact on the decrease in the total number of consumers in jail/correctional facility.
16	The total number of consumers receiving ACT services was incorrectly reported in FY14. The correct number of consumers receiving this service is 1,276.
17	There is no objective data for the EBPs included in Table 17.
