Minnesota

URS Table Number	General Notes
3	The increase in numbers served in psychiatric hospitals is due to the 2014 report did not include persons served in Minnesota's forensic hospital.
4	The increases and decreases in numbers from 2014 to 2015 is due to a different approach to counting the employment numbers. In 2015, we used information from our eligibility files for clients in our Minnesota Health Care Plans including Medicaid. These numbers were more complete for more clients' than the figures used in 2014 leading to fewer unknowns.
5A	The decrease in clients with both Medicaid and Non-Medicaid Funding from 2014 to 2015 is probably due to the Medicaid expansion of covered services which has covered some services not previously covered.
8	Technical Assistance Activities is planning salaries less data salaries paid with MHBG; Planning Council Activities is State Advisory Council expense reimbursements paid with MHBG; Administration is administration salaries paid with MHBG; and Data Collection/Reporting is data staff salaries paid with MHBG.
10	some of the agencies listed served both children and adults. Total Block Grant amount for direct services to children = \$1,865,288; total Block Grant amount for direct services to adults = \$544,992; and total Block Grant amount for direct services to both children and adults = \$1,270,780.
9/11	The variability for the table comparisons may be due to the composition of the provider samples used in each year. For example, the CTSS provider samples for the Family Mental Health Services vary considerably by provider size and number that participated. Smaller sized providers were not allowed in 2014. In 2015 we allowed all CTSS providers to participate in the survey.
11	The state variation of the survey included the official 28 Item MHSIP Adult Outpatient Consumer Survey with additional quality of life measures.
14A/B	Diagnoses included in state SMI Definition: 291.2, 291.3, 292.82, 292.83, 292.84, 294, 294.1, 294.11, 294.8, 294.9, 295, 295.01, 295.02, 295.03, 295.04, 295.05, 295.1, 295.11, 295.12, 295.13, 295.14, 295.15, 295.2, 295.21, 295.22, 295.23, 295.24, 295.25, 295.3, 295.31, 295.32, 295.33, 295.34, 295.35, 295.4, 295.41, 295.42, 295.43, 295.44, 295.45, 295.5, 295.51, 295.52, 295.53, 295.54, 295.55, 295.6, 295.61, 295.62, 295.63, 295.64, 295.65, 295.7, 295.71, 295.72, 295.73, 295.74, 295.75, 295.8, 295.81, 295.82, 295.83, 295.84, 295.85, 295.9, 295.91, 295.92, 295.93, 295.94, 295.95, 296.02, 296.03, 296.04, 296.12, 296.13, 296.14, 296.22, 296.23, 296.24, 296.32, 296.33, 296.34, 296.42, 296.43, 296.44, 296.52, 296.53, 296.54, 296.62, 296.63, 296.64, 296.82, 297, 297.1, 297.2, 297.3, 297.8, 297.9, 298.9, 299, 299.01, 299.1, 299.11, 299.8, 299.81, 299.9, 299.91, 300.02, 301.7, 301.83, 307.1, 307.5, 307.51, 307.52, 307.53, 307.54, 307.59, 308, 308.1, 308.2, 308.3, 308.4, 308.9, 309.81, 310.1, 312.02, 312.03, 312.12, 312.13, 312.22, 312.23, 312.3, 312.31, 312.32, 312.33, 312.34, 312.35, 312.39, 312.4, 312.8, 312.81, 312.82, 312.89, 312.9, 313, 313.23, 313.81, 314, 314.01, 314.1, 314.2, 314.8, 314.9, 315.3, 315.31
14A	The increases in SMI/SED from 2014 to 2015 is due to a combination of factors. First there was a general increase in the number of people served from 2014 to 2015. Second the SED definition was expanded to be a little broader in 2015 to include more mental health services as part of the SED classification- addicting clients who received psychotherapy.
15	The increases in the Jail/Correctional Facility and Homeless/Shelter from 2014 to 2015 is due to a different procedure for pulling out living arrangement data from our Medicaid Management Information System.
16	The decrease in clients receiving Supported Housing from 2014 to 2015 was due to some grants ending for the service. The increase in clients receiving Supported Employment services was due to an expansion of IPP services across the state. The increase in children with SED is due partially to an expansion of the SED definition to include more MH services in the SED classification including psychotherapy.
20A/20B	The variation is because of a small sample size. Going from 2% to 6% only requires a few discharges to change the numbers. The other reason for the year-to-year increases maybe the types of consumers in being admitted to the state hospital. The 48 hour rule to admit patients from jails went into effect July 2013. Since then the state hospital population has changed.
