**Note:**

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table3 and 6.

#### Note:

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2014**

**STATE Montana**

|                           | <b>Expenditures: State</b> | <b>Percent of Total Expenditures: State</b> | <b>Expenditures: U.S.</b> | <b>Percent of Total Expenditures: U.S.</b> |
|---------------------------|----------------------------|---|---------------------------|--|
| State Hospitals-Inpatient | \$32,370,888               | 14%   | \$9,377,004,070           | 23%  |
| Other 24-Hour Care        | \$62,479,688               | 27%   | \$7,332,863,616           | 18%  |
| Ambulatory/Community      | \$132,299,986              | 58%   | \$23,267,025,494          | 57%  |
| Total                     | \$229,826,586              | -   | \$40,831,941,068          | -  |

**Note:**

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2014 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:

Montana

| URS Table Number | General Notes  |
|------------------|--|
| 4                | There was an increase in the number of records reported and a decrease in the number of unknown entries for employment. Because of this, we are attributing the differences to increased reporting by providers as well as better reporting of data elements over the previous year.   |
| 5A               | The big drop in non-Medicaid consumers is because Montana is attempting to move all the MHSP clients out of MHSP and onto Medicaid.  |
| 6                | There were no children as state hospital residents to calculate LOS on. Determining the cause of the change in LOS for adults at the State Hospitals has too many variables for us to provide a reasonable answer because every client and case is unique.   |
| 8                | The decrease in administrative expenses between 2014 and 2015 is due to less time spent on block grants, less travel, less application support, and less time and supplies charged in 2015   |
| 15               | Residential status is primarily reported by providers. When comparing our data between years, it appears providers selected "Other" and "NA" far more in 2015 than in 2014. The selection of these two options seems to be where the differences between the years can be found. It is unclear to us if providers are accurately collecting residential information or instead using the "Other" and "NA" field options as defaults. |
| 17               | There was a big surge by providers from 2012 through 2014 where they were keeping consumers in this program about 1.5 years longer than they should have. Providers have since slowed down with this practice and far less consumers received Illness-Self Management Services in 2015.  |
