*Low precision; no estimate reported.

NOTE: Youths who did not report their school enrollment status or reported not being enrolled in school in the past 12 months were excluded from this analysis.

¹ Respondents with unknown data were excluded.

² Illicit Drugs include marijuana/hashish, cocaine (including crack), heroin, hallucinogens, inhalants, or prescription-type psychotherapeutics used nonmedically, including data from original methamphetamine questions but not including new methamphetamine items added in 2005 and 2006.

³ Binge Alcohol Use is defined as drinking five or more drinks on the same occasion (i.e., at the same time or within a couple of hours of each other) on at least 1 day in the past 30 days.

⁴ Youths reporting that they were "home-schooled" in the past 12 months were considered to be enrolled in school.

⁵ The number of activities participated in is based on four questions: participation in school-based activities, community-based activities, church or faith-based activities, and other activities. For each question, the response categories include "None," "One," "Two," and "3 or more." Respondents were excluded from the analysis if they had unknown data for at least three of the questions and if their known responses did not place them in the recoded "Two or more" category.

⁶ Drug or Alcohol Prevention Messages Seen or Heard in School includes respondents who reported having a special class about drugs or alcohol in school or having had films, lectures, discussion, or printed information about drugs or alcohol in a regular school class, such as health or physical education, or outside of a regular school class, such as in a special assembly.

⁷ Response categories for the School Satisfaction question include "You liked going to school a lot," "You kind of liked going to school," "You didn't like going to school very much," and "You hated going to school." Respondents were categorized as "Yes" if they reported "You liked going to school a lot" or "You kind of liked going to school" and were categorized as "No" if they reported "You didn't like going to school very much" or "You hated going to school."

⁸ Response categories for Grade Average include "An 'A+', 'A,' or 'A-minus' average"; "A 'B+', 'B,' or 'B-minus' average"; "A 'C+', 'C,' or 'C-minus' average"; "A 'D' or less than a 'D' average"; and "My school does not give these grades." Respondents reporting that their school does not give these grades were excluded from the analysis.

⁹ Response categories for the Adult Involvement questions include "Always," "Sometimes," "Seldom," and "Never." Respondents were categorized as "Yes" if they reported "Always" or "Sometimes" and "No" if they reported "Seldom" or "Never."

¹⁰ Response categories for the Substance Use in Grade Level questions include "All of them," "Most of them," "A few of them," and "None of them." Respondents were categorized as "Yes" if they reported "All of them" or "Most of them" and "No" if they reported "A few of them" or "None of them." Youths reporting that they were "home-schooled" in the past 12 months were not considered to be enrolled in school.
