NOTE: Received Substance Use Treatment at a Specialty Facility refers to treatment received at a hospital (inpatient only), rehabilitation facility (inpatient or outpatient), or mental health center in order to reduce or stop illicit drug or alcohol use, or for medical problems associated with illicit drug or alcohol use.

NOTE: If respondents reported that they were currently receiving treatment, they were asked questions regarding specific substances for their current treatment; otherwise, questions pertained to the last treatment they received.

^a Difference between estimate and 2013 estimate is statistically significant at the 0.05 level.

^b Difference between estimate and 2013 estimate is statistically significant at the 0.01 level.

¹ Respondents could indicate multiple substances for which they received their last or current treatment; thus, these response categories are not mutually exclusive.

² Estimates for stimulants do not include data from new methamphetamine items added in 2005 and 2006.
