\* Reported under Hispanic Ethnicity.

**Note:**

This table uses data from URS tables 5a and 5b.

**Type of Medicaid Data Reported**

Data based on Medicaid Eligibility, not Medicaid Paid Services.

**State Notes**

- 5a Age Age was calculated as follows: [(December 31, 2014– (Consumer Birth Date)) / 365.25]
- 5a Gender If multiple genders listed, the most recent non-missing gender was reported.
- 5a Overall Medicaid status was reported for the most recent admission date within the fiscal year. See General Notes.
- 5b Overall Medicaid status was reported for the most recent admission date within the fiscal year.

**Note:**

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table3 and 6.

**Table 3 State Notes:**

Age None  
 Overall None  
 Gender None

**Table 6 State Notes:**

Hospital Includes all individuals admitted to a State Regional Mental Health Center (forensic and non-forensic).  
 Other Inpatient Includes clients admitted to one of the psychiatric inpatient hospitals within Nebraska, other than a State Regional Mental Health Centers.  
 Residential Adolescents included here were admitted to one of the adolescent psychiatric units at a state psychiatric hospital.  
 Community Includes clients receiving outpatient services at a State Regional Mental Health Center or clients receiving services at a community provider.  
 Overall For clients without a discharge date, length of stay was calculated using June 30, 2015 as a 'discharge date'. N/A means no clients fell into this category. Also See Genera Notes.

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2014**

**STATE Nebraska**

	<b>Expenditures: State</b>	<b>Percent of Total Expenditures: State</b>	<b>Expenditures: U.S.</b>	<b>Percent of Total Expenditures: U.S.</b>
State Hospitals-Inpatient	\$46,874,840	33%	\$9,377,004,070	23%
Other 24-Hour Care	\$31,122,956	22%	\$7,332,863,616	18%
Ambulatory/Community	\$59,582,620	43%	\$23,267,025,494	57%
Total	\$140,149,583	-	\$40,831,941,068	-

**Note:**

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2014 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:

Nebraska

URS Table Number	General Notes
All	Individuals included in this reporting are those that were served in a mental health or dual service during fiscal year 2015 funded by the Nebraska DHHS Division of Behavioral Health (DBH). This report does not include individuals served through Medicaid funding. In addition to the 19,441 individuals in the DBH mental health and dual service unduplicated counts, a total of 1,835 unduplicated individuals received mental health or dual services funded through Medicaid. Additionally, DBH cleaned its data system by administratively discharging nearly 30,000 records of admission which had no activity for over one year thus reducing the overall number of active cases in the data system for individuals receiving services. In subsequent review of FY14 data, it has been determined that this administrative discharge accounts for what appears to be, the decreasing number of individuals served (e.g. number reported prior for FY14 = 22,579; Subsequent review following administrative discharge of records for FY14 = 20,614). The subsequent review record amount is comparable to FY15 data (19,441).
All	To obtain unduplicated count of persons served, the Division used social security numbers and dates of birth to identify unique clients in the data system.
5A	The Population for Table 5a is the same population represented in Table 2a. The DBH, which is the state mental health authority (SMA), does not operate Medicaid in Nebraska, therefore the individuals represented in table 5a do not include all Medicaid Mental Health funded individuals. It should also be noted that DBH no longer provides a portion of the funding for Medicaid mental health services. This change from two funding sources to one funding source has resulted in a decrease in the number of individuals served being reported to the DBH. Medicaid reported that 1,825 consumers were served in by Medicaid for specific mental health services.
5B	This is the same population as presented in Table 5a distributed by ethnicity.
6	This table represents the turnover of the clients shown in Table 2a. Total Served at Beginning of Year (unduplicated): This population includes clients with admission dates before July 1, 2014 and who were discharged after July 1, 2014, or were not discharged. Clients are unduplicated. Admissions During the Year (duplicated), the population was limited to records with admission date which occurred between July 1, 2014 and June 30, 2015. All unique admission dates were counted for each service type. Discharges During the year (duplicated), the population was limited to records with discharge date which occurred between July 1, 2013 and June 30, 2015. All unique discharge dates were counted for each service type. Length of Stay (in Days): Discharged Patients, the population was limited to those persons included in the previous column. Mean and Median number of days was calculated by subtracting the Admission date from the Discharge date of each record. For Clients in Facility for Less than 1 Year: Average Length of Stay (in Days): Residents at end of year: the population was limited to persons who were admitted between July 1, 2014 and June 30, 2015, and did not have a discharge date. Length of stay was calculated as follows: (June 30, 2015-Admission Date). For Clients in Facility More than 1 Year: Average Length of Stay (in Days): Residents at end of year: the population was limited to persons who were admitted prior to July 1, 2014, and did not have a discharge date. Length of stay was calculated as follows: (June 30, 2015-Admission Date).
6	There was an increase in LOS for children, though the LOS appears to be due to missing discharge data for a small sample, thus increasing LOS for those not discharged. Due to the small number of clients in this particular category, it is understandable for there to be a large variance in the average LOS. The increase in average LOS of adults who were state hospital residents at the end of the year due to efforts made to discharge appropriate consumers who had been residents for long periods to appropriate lower levels of care. Increased LOS decreased the number of consumers that could be admitted to the state hospital and other inpatient settings.
9	DBH drew a stratified random sample of individuals who received services via the six Regional Behavioral Health Authorities from community mental health and/or dual providers for the second half of Calendar Year (July to December 2014). The sample drawn was used to conduct the annual consumer survey. Social connectors for youth results dropped and will be reviewed by the statewide quality improvement team to identify improvement strategies.
11	This is the same sample as presented in Table 9SC distributed by the rest of 5 domains. Overall response rates for both adults and youth dropped; methodology for survey implementation will be reviewed by the state wide quality improvement team to identify improvement strategies.
12	Percent of adults meeting Federal definition of SMI represents the total number of adults (18 and above) found in Table 14A (SMI population) divided by the total number of adults (18 and above) found in Table 2A (Total MH population served). See Table 14A comments for SMI definitions. Percentage of children/adolescents meeting Federal definition of SED represents the total number of children/adolescent (3-18 years old) found in Table 14A (SED population) divided by the total number of children/adolescent (3-18 years old). See Table 14A comments for SED definitions.

URS Table Number	General Notes
12	<p>Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem represents adults (18 years old and greater) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of Adults in the population. A Person with a Substance Abuse Diagnosis is defined as someone who: (1) Has a DSM-IV Axis 1 number which complies with a Substance Abuse Diagnosis (291.1-292.99 and 303.0-305.99) or (2) Has a Service Authorization for a Substance Abuse Program.</p> <p>Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem represents children/adolescents (less than 18 years of age) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of children/adolescents in the population.</p>
12	<p>Percentage of adults meeting Federal definition of SMI who also have a diagnosis of substance abuse problem represents adults (18 years old and greater) in the population who meet the Federal definition for SMI, who have a diagnosis Substance Abuse problem divided by the total number of adults with SMI in the population (Table 14A). Percentage of children/adolescents meeting the Federal definition of SED who also have a diagnosis of substance abuse problem represents children/adolescents (3-18 years of age) in the population who meet the Federal definition for SED and who have a diagnosed Substance Abuse problem, divided by the total number of children/adolescents with SED in the population (Table 14A).</p>
12	<p>Note: With the requirement for the client level data reporting initiative, Nebraska calculated age as of the mid-point of the reporting period, whereas in the prior reporting period, age was calculated as of the beginning of the s FY.</p>
14A	<p>This table represents the distribution of the adult SMI and children/adolescent SED population. This population is a subset of the population presented in Table 2A. See table all related to administrative discharge activity. In subsequent review of FY14 data, it has been determined that this administrative discharge accounts for, what appears to be, the decreasing number of individuals served with SMI/SED (e.g., number of consumers with SMI/SED previously reported for FY14 was 15,451; subsequent review following administrative discharge of records for FY14 was 14,085). The subsequent review record indicates smaller decrease from FY14 to FY15 data (12,738). It is believed the remainder of the decrease is due to the reduced number of Medicaid-eligible consumer information being entered into the DBH system. See table 5a notes for more information.</p>
14A	<p>NE State SMI Definition: an Axis diagnosis codes between 295-298.9 AND GAF score= 1-59 OR SSI/SSDI eligible OR were admitted to a Community Mental Health Rehabilitation Based Services: Community Support, Assertive Community Treatment, Psychiatric Residential Rehabilitation, Day Treatment, Day Rehabilitation, Day Support, Vocational Support, or related psychiatric rehabilitation services OR Provider selected YES for Meets NE SPMI Criteria.</p>
14A	<p>NE State SED Definition: Age 3-17 AND One of the following Axis diagnosis codes 314.00, 314.01, 314.9, 295.xx, 295.4, 295.7, 297.1, 297.3, 298.8, 298.9,296.0x, 296.4x, 296.5x, 296.6x, 296.7, 296.80, 296.89, 296.90, 301.13, 296.2x, 296.3x, 300.01, 300.21, 300.30, 307.1, 307.51, 309.81, 312.34, 307.23 AND SSI/SSDI eligible OR were admitted to one of the following programs: Professional Partner Services, Special Education Services, Day Treatment MH, Intensive OP – MH, Therapeutic Consultation/School Wrap, Respite Care – MH OR Provider selected YES for Consumer Meets NE SED Criteria</p>
16	<p>Adults with SMI served is the same adult population found in Table 14A. Children with SED is the same child/adolescent population found in Table 14a.</p>
17	<p>Receiving Integrated Treatment for Co-occurring Disorders (MH/SA) represents individuals listed as receiving treatment in a dual-diagnosis program service use records. It is believed that the increase in the number of consumers receiving Integrated Dual Dx Services is due to a multi-year statewide initiative to improve the identification of individuals with dual diagnoses through provider training and referral processes for those consumers into dual-diagnoses services and treatment.</p>
19A	<p>Consumers using state funded behavioral health services are asked the question: "Have you had any arrests within the last 30 days" at admission and discharge. Individuals who are admitted to one of the state psychiatric hospitals are not asked this question, and a code of N/A is assigned to those individuals. If a consumer did not have an admission or discharge date within T1 or T2, then they were included in the 'No Response' category. For Consumers in Service for at least 12 months: Individuals identified in Table 2A, who had a service date within the data system prior to 7/1/13, were included in this table. For Consumers who began using Mental Health services within the last 12 months: Individuals identified in Table 2A, who had a first admission in the data system within the current fiscal year (7/1/14-6/30/15). T2: Included those who had self-reported at least one arrest or criminal justice system encounter within the current fiscal year (7/1/14-6/30/15) or did not report any arrests. T1: Included those who had self-reported at least one arrest or criminal justice system encounter within the previous fiscal year (7/1/13-6/30/14) or did not report any arrests. If Arrested at T1 (change): Individuals identified in T1 that had a self-reported arrest during the previous fiscal year, and had a self-reported arrest within the current fiscal year or did not have a self-reported arrest during the current fiscal year. If not Arrested at T1 (change): Individuals identified in T1 that did not have a self-reported arrest during the previous fiscal year, and had an a self-reported arrest within the current fiscal year or did not have an a self-reported arrest during the current fiscal year. Individuals missing birth date were included in the adult population.</p>

URS Table Number	General Notes
19B	<p>Consumers age 3-17 using state funded behavioral health services are asked the question: "Has your child been attending school in the last 3 months?" at admission, annual re-registration, annual re-authorization, and discharge. Individuals who are admitted to one of the state psychiatric hospitals are not asked this question, and a code of N/A is assigned to those individuals. If a consumer did not have an admission or discharge date within T1 or T2, then they were included in the 'No Response' category. For Consumers in Service for at least 12 months: Individuals identified in Table 2A, who had a service date within the data system prior to 7/1/14, were included in this table. For Consumers who began using Mental Health services within the last 12 months: Individuals identified in Table 2A, who had a first admission in the data system within the current fiscal year (7/1/14-6/30/15). T2: Included those who had self-reported suspended within the current fiscal year (7/1/14-6/30/15) or did not report any suspends. T1: Included those who had self-reported suspended within the previous fiscal year (7/1/13-6/30/14) or did not report any suspends. If suspended at T1 (change): Individuals identified in T1 that had a self-reported suspend during the previous fiscal year, and had a self-reported suspend within the current fiscal year or did not have a self-reported suspend during the current fiscal year. If not suspended at T1 (change): Individuals identified in T1 that did not have a self-reported suspend during the previous fiscal year, and had an a self-reported suspend within the current fiscal year or did not have an a self-reported suspend during the current fiscal year. NE started to collect school attendance information at discharge since JULY 2011.</p>
