Ohio

URS Table Number	General Notes
4 & 15	Ohio changed methodology on files. Quality, Planning & Research staff prepared the file that everyone used as starting point to prepare URS Tables. The Office of Information Technology staff (Mark) then matched the information to the OHBH (MH-TEDS in Ohio). Data entered into the OHBH is incomplete. Ohio MHAS Office of Information Systems staff is rebuilding the OHBH, and will work with providers to increase reporting after the new system is built.
5A	The decrease in total number of consumers with Non- Medicaid Funding only is due to Medicaid expansion.
10	Ohio does not track MH Block Grant expenditures by adults (SMI) and children (SED), so an algorithm using the percentage of adults and children reported to allocate most of the awards. In some cases where the award was clearly for one age group, it was allocated to that age group. As the allocation method was changed this year, the numbers may vary some from last year.
10	TThe SFY 2015 Ohio MH Block Grant Expenditures totaled \$14,769,180, were allocated between Tables 8 and 10. Since Ohio MHAS expends each federal fiscal year award across two state fiscal years, the total of Tables 8 and 10 will not match the federal award.
16	Ohio MHAS is picking these ACT and Supported Employment services up for Medicaid option in calendar 2016. For these two services, staffs have been working with sites to improve reporting. Also, we are serving more individuals in Supported Employment as one of the Governor's initiatives. MST was expanded through the Strong Families program, but that doesn't explain the entire increase.
16	Staff reporting MST data from Center for Innovative Practice changed, as well as the director. This changed the methodology for reporting.
