Tennessee

URS Table Number	General Notes
2A, 5A, 14A & 21	TennCare (Medicaid) includes Native Hawaiians and Other Pacific Islander in the Asian race category. TennCare does not collect a multi-race data field.
2A, 3, 5, 5A, 6, 14A, 20A & 21	Forensic data were not included in these tables.
3	Data for the TennCare population represents a duplicated count for service setting. Therefore, the total in Table 3 does not equal the total in Table 2A.
3 & 6	A person who was served in both a community setting and inpatient setting was included in both categories. Inpatient psychiatric data includes hospitals operated by or under contract with the TDMHSAS or paid for by Medicaid (TennCare).
4	In general, the FY2015 client level data file included more people taking the FY15 TOMS and reported being part - or full-time employed. Furthermore, the number of people in the FY2015 client level data file included more people with part- or full-time employment (+479) from the previous year than the FY2014 CLD file.
4a, 14a, & 15a	In March 2015, non-Medicaid crisis stopped collecting data on diagnosis.
6	Data for Other Psychiatric Inpatient settings includes data from private hospitals providing services to TennCare enrollees.
12 & 14A	TennCare employs an operations definition based on mental health diagnosis (290.xx-314.xx) and a 15-month claims history to categorize individuals as having serious mental illness (SMI). Substance abuse disorders (SUD) were based on the presence of a secondary diagnosis of substance abuse disorder (303.xx-305.xx) as with previous years.
12 & 21	Only includes TennCare (medicaid) data.
16 & 17	Differences in these tables may be attributed to differences in the number of and specific providers submitting data in FY14 and FY15.
