District of Columbia

URS Table Number	General Notes
5A, 5B	There is an increase in the total number of consumers served with Medicaid funding only, while there is a decrease in the total number of consumers served with non-Medicaid funding from 2010 to 2011. This is due to Health Care Reform and The DC Alliance enabled the Department's ability to cover more people under Medicaid. For example, single men were included as being Medicaid eligible. In addition, there has been an adjustment to services now being Medicaid reimbursable.
6	The decrease in total admissions to other psychiatric inpatient from 2010 to 2011 is due to increased efforts made to manage the care of the high (hospital) utilizers through the Integrated Care Department and the assigned Core Service Agencies. In addition, DMHA has taken a more in-depth role with the authorization of hospitals beyond the state run inpatient hospital (St. Elizabeth).
8	A substantial portion of the FY2011 Block Grant funds were not expended during FY2011 and were carried over to FY2012 (\$369,092.73). This total included the total administrative fee of \$37,600.50, the total D.C. State Mental Health Planning Council allocation of \$25,000. The FY2010 carryover Block Grant funds to FY2011 totaled \$267,792.09.
12	DMHA alongside the supported of contracted Core Service Agencies underwent major efforts to clean the data without the Department's data claims systems which has led to the reporting of more appropriate and accurate diagnosis. In addition, an adjustment to the reporting query was made to enhance reporting.
16	The 46% increase in the number of consumers receiving ACT services between FY2010 and FY2011 is due to an increase in the number of providers/teams and a rate increase.
