Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2010

US totals are calculated uniquely for each data element based on only those states who reported clients served.
Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Hawaii

URS Table Number	General Notes
6	Along with overall reductions in registrations into CAMHD's system, the following services have seen one or more programs close due to budgetary reasons and/or decreases in referrals: Community Based Residential III, Therapeutic Group Home, Independent Living Program, Multidimensional Treatment Foster Care, and Respite Home.
8	AMHD, included the Agricultural Self-Employment Micro-Enterprise Development Project which included paying providers to train consumers which accounted for \$406,186 of block grant funds. In addition, CAMHD saw an increase in expenditures for the purchase of video-teleconference equipment to increase access to services for residential clients in remote areas that totaled \$105,073. These new services would account for the large increase in expenditures for 2011.
19A	For adults, the arrest data come from our QOLI question which should be administered to all consumers receiving case management services. We have no way of knowing how many consumers were seen and not given the QOLI, which is administered by clinicians. For children, sample size is much lower than last year because of a change in system structure, where many island of Kauai clients were removed from CAMHD registrations because they were not SED (they were previously part of a joint DOE-CAMHD effort).
