Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2010

US totals are calculated uniquely for each data element based on only those states who reported clients served.
Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 14a	
Age	None
Gender	None
Race	Pacific Islander reported under Asian in inpatient data. FY11 is the first year the state has been able to report "more than race reported" (multiracial). Previously, individuals reporting more than one race would have been reported under single race.

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data for URS/DIG Table 4a.

State Notes:

None

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2009

STATE Louisiana

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$190,884,787	59%	\$9,790,074,311	26%
Other 24-Hour Care	\$12,697,282	4%	\$7,066,269,663	19%
Ambulatory/Community	\$97,522,280	30%	\$19,905,016,805	53%
Total	\$321,141,934	-	\$37,611,390,427	-

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2009 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2009

Louisiana

URS Table Number	General Notes
All	For FY 2011, clients on the outpatient data caseload who did not have a service during the fiscal year are excluded from the counts.
12	Improved data collection for SED/SMI accounts for the increase in the percent of children/adolescents meeting Federal definition of SED and percent of children served by the SMHA with co-occurring MH/SA diagnosis from FY10 to FY11. In addition, the method of identifying substance abuse was changed to include positive Current Problem Drug Use and/or Current Problem Alcohol Use data fields as well as a diagnosis of substance abuse on Axis 1.
16 & 17	EBPs are practiced in some areas of the state but not others. The use of fidelity measures differs from region to region within the state. In addition, staff training and the use of toolkits varies across the state. Format for data collection of Age, Gender, Race and Ethnicity for individual services differs from data collection for total count so these have been collapsed into 'unavailable' row to avoid conflict with edit checks. The collection of these specific data elements is improving.
17	Reorganization of state supported clinics/community services as well as the associated budget reductions account for the decrease in the total number of consumers receiving family psychoeducation services, integrated dual diagnosis services, and self management services from FY10 to FY11.
19A and 19B	Data is from assessments administered in clinics as follows: For new clients, assessments are administered within 30 days of admission, then at three months. Follow-up assessments are administered every six months thereafter. For existing clients, an initial assessment is administered and then follow-up assessments every six months thereafter. This data is currently collected using Telesage Outcome Measurement System (TOMS). We are working to include these questions in our outpatient clinic data to ensure collection on all persons in service.
Table 20a, 20b and Table 21	Louisiana successfully reduced the number of available hospital beds in the state and provided a corresponding increase in the availability of outpatient services.
