\* Reported under Hispanic Origin.

**Note:**

Are Client Counts Unduplicated? Unduplicated Number of States with Unduplicated Counts 43

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2010

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

**Table 2a**

Age Age was calculated as follows: [(July 1, 2010– (Consumer Birth Date)] / 365.25]  
 Gender If multiple genders listed, the most frequent gender was reported.  
 Race For race listed as "Other", reported in "Unknown". If more than one race listed, most frequent race was reported.  
 Overall See General Notes

**Table 2b**

Age Age was calculated as follows: [(July 1, 2010– (Consumer Birth Date)] / 365.25]  
 Gender If multiple genders listed, the most frequent gender was reported.  
 Race If more than one ethnicity listed, most frequent ethnicity was reported.  
 Overall See General Notes

\* Reported under Hispanic Ethnicity.

**Note:**

This table uses data from DIG Tables 5a, and 5b (Hispanic Origin).

**Duplication** -

**Type of Medicaid Data Reported**

Data based on Medicaid Eligibility, not Medicaid Paid Services.

**State Notes**

- 5a Age Age was calculated as follows: [(July 1, 2010– (Consumer Birth Date)) / 365.25]
- 5a Gender If multiple genders listed, the most frequent gender was reported.
- 5a Overall Medicaid status was reported for the most recent admission date within the fiscal year.
- 5b Overall Medicaid status was reported for the most recent admission date within the fiscal year.

**Note:**

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

**Table 3 State Notes:**

Age Age was calculated as follows: [(July 1, 2010– (Consumer Birth Date)) / 365.25]  
 Overall See General Notes  
 Gender If multiple genders listed, the most frequent gender was reported.

**Table 6 State Notes:**

Hospital Includes all individuals admitted to a LRC (forensic and non-forensic). LRC Adolescent program consists of a 16-bed residential program (two 8-bed units) & 8-bed treatment group home, at the Whitehall campus.  
 Other Inpatient Includes clients admitted to one of the psychiatric inpatient hospitals within Nebraska, other than a State Regional Mental Health Center.  
 Residential Adolescents included here were admitted to one of the adolescent psychiatric units at a state psychiatric hospital.  
 Community Includes clients receiving outpatient services at a State Regional Mental Health Center or clients receiving services at a community provider.  
 Overall For clients without a discharge date, length of stay was calculated using June 30, 2011 as a 'discharge date'. N/A means no clients fell into this category. Also see General Notes

#### Note:

US totals are based on states reporting.

This table uses data from URS/DIG Tables 16 and 17.

US averages are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

#### State Notes:

Table 16: See General Notes

Table 17: See General Notes

## Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Age and Gender, FY 2011

### Nebraska

Demographics	State				Employed as Percent of those in Labor Force		Employed as Percent of Known Employment Status		States Reporting
	Employed	Unemployed	In Labor Force*	With Known Employment Status**	State	US	State	US	
Age 18 to 20	265	306	571	1,009	46%	31%	26.3%	13.9%	54
Age 21 to 64	4,835	4,239	9,074	16,606	53%	35%	29.1%	19.1%	54
Age 65 and over	56	36	92	438	61%	31%	12.8%	7.5%	53
Age Not Available	-	-	-	-	-	44%	-	7.3%	9

Gender TOTAL	5,156	4,581	9,737	18,053	53%	35%	28.6%	18.1%	54

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
NE	Yes	Yes	-	-	-
US	40	31	2	3	37

#### Note:

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS/DIG Table 4.

#### State Notes:

Age Age was calculated as follows: [(July 1, 2010– (Consumer Birth Date)] / 365.25]. Missing Ages were excluded from table.

Gender If multiple genders listed, the most frequent gender was reported.

Overall Employment was reported for the most recent discharge date within the fiscal year, unless missing, in which case admission date was used where available. Also see General Notes

## Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2011

### Nebraska

State Hospitals-Inpatient	\$47,661,195	36%	\$9,790,074,311	26%
Other 24-Hour Care	\$33,763,690	26%	\$7,066,269,663	19%
Ambulatory/Community	\$49,306,277	37%	\$19,905,016,805	53%
Total	\$131,738,063	-	\$37,611,390,427	-

**Note:**

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2009 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:  
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2009**

**STATE Nebraska**

Funding Source	Ambulatory/Community			State Hospital		
	State Revenues	Percent Total (State)	Percent Total (US)	State Revenues	Percent Total (State)	Percent Total (US)
Medicaid	\$16,850,055	20.3%	58.7%	\$707,413	1.5%	23.1%
Community MH Block Grant	\$2,179,770	2.6%	1.4%	-	-	0.0%

Nebraska

URS Table Number	General Notes
All	Beginning in the FY2010 URS Tables, the Division of Behavioral Health changed the method used to identify mental health individuals. In the past, individuals included in Table 2A were either served in a mental health or dual service OR had a diagnosis of mental illness and used a substance abuse service OR had a mental health reason for admission. Currently, individuals included in Table 2A are those that were served in a mental health or dual service within the fiscal year. This has reduced the number of individuals appearing in the URS Tables prior to FY2010.
All	To obtain unduplicated count of persons served, the Division used social security numbers and dates of birth to identify unique clients in the data system.
2A	Data for this table were extracted from the Data Integration Grant (DIG) Database. The DIG Database is a collect of data from several different databases. The databases include in DIG are Magellan 2009, AIMS, and Avatar. The Magellan databases hold collections of Community Based Data for Nebraska. The AIMS/Avatar databases represent consumers served in one (or more) of the state's three regional centers. The DIG database contains information about Mental Health, Dual Diagnosis, and Substance Abuse consumers.
2A	From the DIG database, Records for Mental Health and Dual Diagnosis Consumers are extracted. Mental Health Consumer records are included in this population when they: 1) Have a Service Authorization for a Mental Health Treatment Program or 2) Have a Service Authorization for a Dual Treatment Program
2A	Consumers only being served for Substance Abuse or Mental Retardation/Developmental Disabilities are excluded from this population.
2A	The population used for Table 2a is an unduplicated count of persons served in both regional center and community programs. The clients were identified by social security number and date of birth.
2B	This is the same population presented in Table 2A distributed by ethnicity.
3	Data in this table reflects a population which receives Mental Health Services in one of four settings. This table contains data which are duplicated across rows.
3	Community Mental Health Programs includes clients receiving outpatient services at a State Regional Mental Health Center or clients receiving services at a community provider.
3	State Psychiatric Hospitals include all individuals admitted to a State Regional Center (forensic and non-forensic).
3	Other Psychiatric Inpatients include clients admitted to one of the psychiatric inpatient hospitals within Nebraska, other than a State Regional Mental Health Center.
3	Residential Treatment Center for Children population consists of adolescents admitted to one of the units State Regional Center or had a living situation of "Child Residential Treatment"
4	This table is a representation of the non-institutionalized ADULT population first presented in Table 2a. Employment Status is based on most recent discharge data, if more than one. If employment status was listed as unknown or was missing, employment status at admission, if available, was used. If age was missing, then consumer was excluded from this table.
4A	This represents the same population as in Table 4.
4A	Primary diagnosis could not be determined, due to the nature of the database (i.e. several diagnoses at admission, with no clear identification of primary diagnosis). As an alternative, a hierarchal approach was used where the most frequent diagnosis of schizophrenia, bipolar and mood disorders, and other psychiatric diagnostic combinations was applied. Those individuals who did not fall into one of those three categories, were placed in "all other diagnoses" if other mental health diagnostic codes were listed (Axis codes between 290-316, minus substance abuse codes). The remainder of the population was classified as "No Diagnosis and Deferred" if an appropriate code was listed (799.9 or V71.09) or no diagnosis was given at all.
5A	The Population for Table 5a is the same population represented in Table 2A. The distribution of patients was defined as follows: Medicaid Only: persons listed as eligible and receiving payments, without another source of medical insurance. Non-Medicaid Only: persons listed as having a non-Medicaid source of insurance. Both Medicaid and Non-Medicaid: Persons listed as eligible and receiving payments from Medicaid, that have another source of medical insurance. Medicaid Status Not Available: all persons not listed as having Medicaid or another source of medical insurance.
5B	This is the same population as presented in Table 5A distributed by ethnicity.
6	This table represents the turnover of the clients shown in Table 2A

URS Table Number	General Notes
6	Total Served at Beginning of Year (unduplicated): This population includes clients with admission dates before July 1, 2010 and who were discharged after July 1, 2010, or were not discharged. Clients are unduplicated.
6	Admissions During the Year (duplicated), the population was limited to records with admission date which occurred between July 1, 2010 and June 30, 2011. All unique admission dates were counted for each service type.
6	Discharges During the year (duplicated), the population was limited to records with discharge date which occurred between July 1, 2010 and June 30, 2011. All unique discharge dates were counted for each service type.
6	Length of Stay (in Days): Discharged Patients, the population was limited to those persons included in the previous column. Mean and Median number of days was calculated by subtracting the Admission date from the Discharge date of each record.
6	For Clients in Facility for Less than 1 Year: Average Length of Stay (in Days): Residents at end of year: the population was limited to persons who were admitted between July 1, 2010 and June 30, 2011, and did not have a discharge date. Length of stay was calculated as follows: (June 30, 2011-Admission Date).
6	For Clients in Facility More than 1 Year: Average Length of Stay (in Days): Residents at end of year: the population was limited to persons who were admitted prior to July 1, 2010, and did not have a discharge date. Length of stay was calculated as follows: (June 30, 2011-Admission Date).
12	Percent of adults meeting federal definition of SMI represents the total number of adults (18 and above) found in Table 14A (SMI population) divided by the total number of adults (18 and above) found in Table 2A (Total MH population served). See Table 14A notes for SMI definitions.
12	Percent of children/adolescents meeting federal definition of SED represents the total number of children/adolescent (3-18 years old) found in Table 14A (SED population) divided by the total number of children/adolescent (3-18 years old). See Table 14A notes for SED definitions.
12	Percent of adults served by the SMHA who have a diagnosis of mental illness and substance abuse represents adults (18 years old and greater) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of Adults in the population. A Person with a Substance Abuse Diagnosis is defined as someone who: (1) Has a DSM-IV Axis 1 number which complies with a Substance Abuse Diagnosis (291.1-292.99 and 303.0-305.99) or (2) Has a Service Authorization for a Substance Abuse Program.
12	Percent of children/adolescents served by the SMHA who have a diagnosis of mental illness and substance abuse represents children/adolescents (less than 18 years of age) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of children/adolescents in the population.
12	Percent of adults meeting federal definition of SMI who also have a diagnosis of substance abuse represents adults (18 years old and greater) in the population who meet the Federal definition for SMI, who have a diagnosis Substance Abuse problem divided by the total number of adults with SMI in the population (Table 14A).
12	Percent of children/adolescents meeting the federal definition of SED who also have a diagnosis of substance abuse represents children/adolescents (3-18 years of age) in the population who meet the Federal definition for SED and who have a diagnosed Substance Abuse problem, divided by the total number of children/adolescents with SED in the population (Table 14A).
12	Due to the changes made in the way Table 2A was populated this year, the percentages in of adults and children/adolescents served by the SMHA who have a diagnosis of mental illness and substance abuse as well as those who meet the federal definition of SMI/SED who also have a diagnosis of substance abuse have decreased from last years report.
14A	This table represents the distribution of the adult SMI and children/adolescent SED population. This population is a subset of the population presented in Table 2A.
14A	NE State SMI Definition: An Axis diagnosis codes between 295-298.9 AND GAF score= 1-59 OR SSI/SSDI eligible OR were admitted to a Community Mental Health Rehabilitation Based Services: Community Support, Assertive Community Treatment, Psychiatric Residential Rehabilitation, Day Treatment, Day Rehabilitation, Day Support, Vocational Support, or related psychiatric rehabilitation services
14A	NE State SED Definition: Age 3-17 AND One of the following Axis diagnosis codes 314.00, 314.01, 314.9, 295.xx, 295.4, 295.7, 297.1, 297.3, 298.8, 298.9,296.0x, 296.4x, 296.5x, 296.6x, 296.7, 296.80, 296.89, 296.90, 301.13, 296.2x, 296.3x, 300.01, 300.21, 300.30, 307.1, 307.51, 309.81, 312.34, 307.23 AND SSI/SSDI eligible OR were admitted to one of the following programs: Professional Partner Services, Special Education Services, Day Treatment MH, Intensive OP – MH, Therapeutic Consultation/School Wrap, Respite Care – MH
14B	This is the same population as presented in Table 14A distributed by ethnicity.
15	Living Situation information is based upon Self-Report Data collected at admission and discharge. This table shows the living status at the most recent discharge, if available. If living status at discharge was unavailable, the most recent living status at admission was reported.

URS Table Number	General Notes
16	Adults with SMI served and children/adolescent with SED served are the same adult and children population, respectively, found in Table 14A.
17	Receiving Integrated Treatment for Co-occurring Disorders (MH/SA) represents individuals listed as receiving treatment in a dual-diagnosis program service use records. Note: These numbers are lower than in the past due to changes in how this field is populated, in the past it has included those with dual-program services use, admission reason, and level of care.
17	Receiving Medication Management represents individuals listed as receiving medication management services.
20A	This table includes all persons discharged from a state psychiatric hospital between 7/1/10-6/30/11, that were not admitted to or discharge from a forensic unit.
20A	The total number of discharges includes individuals treated at the state psychiatric hospitals only for substance abuse disorders, as well as individuals treated for both substance abuse and mental health disorders and those treated for mental health disorders only.
20A, 20B, and 21	Transfers between different state psychiatric hospitals are not counted as discharges. A discharge is counted if the person has been discharged for more then seven days without a readmission, and if the discharge status does not indicate a transfer.
20A, 20B, and 21	Readmissions are counted if they occurred greater than seven days after a discharge, and if the discharge status does not indicate a transfer.
20B	This table includes all persons discharged from a state psychiatric hospital between 7/1/10-6/30/11, that were admitted to or discharged from a forensic unit.
21	This table includes all persons discharged from a state psychiatric hospital or a psychiatric inpatient hospital between 7/1/10-6/30/11, that were not admitted to or discharge from a forensic unit.
21	The total number of discharges includes individuals treated only for substance abuse disorders, as well as individuals treated for both substance abuse and mental health disorders and those treated for mental health disorders only.
