Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2010

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

This table uses data from URS/DIG Table 20.

State Notes:

None

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2009

STATE Pennsylvania

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$494,866,066	15%	\$9,790,074,311	26%
Other 24-Hour Care	\$264,269,818	8%	\$7,066,269,663	19%
Ambulatory/Community	\$2,637,717,638	77%	\$19,905,016,805	53%
Total	\$3,409,557,974	-	\$37,611,390,427	-

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2009 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2009

Pennsylvania

URS Table Number	General Notes
6	PA has seen the closure of several state hospitals over the last few years, resulting in increased use of other psychiatric inpatient placements.
8	The increase in total MHBG Expenditures for Non-Direct Service Activities is due to the addition of Network of Care expenditures in the amount of \$593,280.
12	Percentage of consumers identified as SED and SMI has increased due to a different method of calculating this population. Previous method is unavailable because of changes in data source.
14A	Percentage of consumers identified as Total number of consumers with SED and SMI has increased due to a different method of calculating this population. Information previously received from Data Store, but due to changes in organization, the data store was not maintained and updated; we had to get information from DPW Data Warehouse and define SMI and SED based on diagnosis codes. This resulted in significant increase.
15	The increase in total number of consumers living in Private Residence, Jail/Correctional Facility and who were homeless are due to change from Data Store, which was not maintained, to HCSIS. HCSIS does not contain information for all consumers yet. The OMHSAS has begun a pilot to enable counties to report on the consumers they serve, in a HIPAA-compliant format, with the eventual goal of full reporting capacity for all funding streams. As more counties participate in CCR Initiative, and more consumers are data entered into system, this number will increase.
16	Change in data source and methodology (OMHSAS Data Store to DPW Data Warehouse) resulted in change in numbers of SED and SMI. Change in data source from Data Store to HCSIS resulted in decrease for Supported Housing, Employment, as all consumers are not data entered into HCSIS system. Corrected figures for therapeutic foster Care, number increased. Re: Functional Family Therapy- As OMHSAS continues to encourage the use of EBPs, and more providers are offering these services, we have seen increased numbers in consumers.
17	Another provider became qualified to provide integrated services, resulted in increased number of consumers served.
