**Note:**  
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2010

US totals are calculated uniquely for each data element based on only those states who reported clients served.  
Regional groupings are based on SAMHSA's Block Grant Regions.

**Note:**

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Puerto Rico

URS Table Number	General Notes
2A	There was a reduction among children and adolescents served by our agency. Two of our ambulatory mental health programs for this population were privatized. Also, the number of adult's clients served among the agency decreased for FY 2010-2011.
3	There was a reduction among children and adolescents served by our Community MH Programs. Two of our ambulatory mental health programs for this population were privatized.
4	There are persons served by the Psychiatric Hospital with employment status available and were included in this table.
4	More of the unemployed either found jobs or gave up looking and were no longer counted as unemployed. The October jobs data from the local Labor Department was a mixed bag for Puerto Rico as the labor force reached 1.287 million, a decrease of 13,000 compared to the same month a year ago, but a gain of 11,000 from September (Caribbean Business Magazine, December 2011).
5A	There was a reduction among children and adolescents served by our agency. Two of our ambulatory mental health programs for this population were privatized. Also, the number of adult's clients served among the agency decreased for FY 2010-2011.
6	The percent of change can be explain by better reporting strategies used to resume served clients statistics among mental health treatment centers by level of care.
12,14a & 16	This year the agency used a different definition from previous years. Last year: GAF = 50. This year (2011): A person may be considered to have a serious and persistent mental illness (SPMI) if they have significant impairment in functioning due to a specific mental illness diagnosis (Schizophrenia, bipolar disorder, major depressive disorder, or borderline personality disorder).
15	There was a reduction among children and adolescents served by our agency. Two of our ambulatory mental health programs for this population were privatized. Also, the number of adult's clients served among the agency decreased for FY 2010-2011.
17	The percent of change can be explain by better reporting strategies used this year to count served clients participating in Evidence Based Practices.
