Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2010

US totals are calculated uniquely for each data element based on only those states who reported clients served.
Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 14a
Age None
Gender None
Race A major community based provider began installation of a new system in FY 2011. The provider was not able to report the race. The result will be a significant increase in "Race not reported" and a decrease in the other categories.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age None
 Overall None

URS Table Number	General Notes
All tables with race	A major community based provider began installation of a new system in FY 2011. The provider was not able to report race. The result will be a significant increase in "race not reported" and a decrease in the other categories.
4A	Table 4A is not completed.
15	The count for Homeless/Shelter includes individuals who, at any time during the fiscal year, received services while homeless or in a shelter. Even though they may no longer be receiving services, their last known address is reported which overstates the the number being served at the end of the fiscal year who are homeless or living in a shelter.
20A	The readmission rate may not be comparable to previous years. In prior years, transfers between facilities were not counted as readmissions. Beginning this fiscal year, in order to standardize definitions and reporting, a transfer will be counted as a discharge and readmission. This change will increase rreadmission rates from prior FYs.
20 B	The readmission rate may not be comparable to previous years. In prior years, transfers between facilities were not counted as readmissions. Beginning this fiscal year, in order to standardize definitions and reporting, a transfer will be counted as a discharge and readmission. This change will increase rreadmission rates from prior FYs.
21	The readmission rate may not be comparable to previous years. In prior years, transfers between facilities were not counted as readmissions. Beginning this fiscal year, in order to standardize definitions and reporting, a transfer will be counted as a discharge and readmission. This change will increase rreadmission rates from prior FYs.
