Arizona

URS Table Number	General Notes
5A	Arizona has experienced a loss in Medicaid funding in the past reporting period, which forced clients to move from Medicaid to Non-Medicaid. This led to many clients switching between having Medicaid and not having it during the reporting year.
6, 20A, 20B	The State Hospital has historically low numbers of admissions, which leads to any change to result in a large difference in percentages. We also used a new process of collecting and running the data.
10	Gila River resulted in a net amount of (\$247) in SMI due to a prior year transfer of expenditures to SED that occurred during the current reporting fiscal period.
