Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age See General Notes
 Overall See General Notes
 Gender None

Table 6 State Notes:

Hospital Data includes inpatient hospital stays in State hospital Adult Mental Health and Secure/Forensic programs. No child/adolescent programs exist in the state hospitals.
 Other Inpatient Data for Other Psychiatric Inpatient is maintained in a separate database and cannot be incorporated into total unduplicated consumers served from other tables. (See General Notes)
 Residential Data includes PRTF consumers. Age determined at Admission or Beginning of Report Period.
 Community Data includes authorizations for any community service where PDC = AMH/CAMH or SDC = MH. Also, see General Notes.
 Overall For purposes of this table, consumers are reported in the age category of the first contact within the particular service grouping.

Georgia

URS Table Number	General Notes
All	Unless otherwise specified, data in all tables includes consumers served in the following settings: State hospital inpatient stays in Adult Mental Health and Secure (Forensics) programs. Data for hospital outpatients and non-admits (including 23-hour observation) is not included; however, hospital-operated community services are included with other community services. Authorizations for residential stays in Psychiatric Residential Treatment Facilities (PRTFs). Authorizations for community services for consumers having at least one authorization with Primary or Secondary Diagnostic Category of MH.
All	Age: Unless otherwise specified the age reported is the consumer's age at the first date active in the State MH system during the SFY. Race: "More Than One Race Reported" includes Multi-Racial. "Race Not Available" includes Other Single Race, Unknown, and not reported. Hispanic/Latino Origin: "Not Available" includes "Unknown" and not reported.
4	Data reported for community consumers only. Reported employment status is the latest available for the SFY. Employment status is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. "Employed" includes competitive employment and community based non-competitive employment. "Unemployed" includes unemployed but available for work = Yes. "Not in Labor Force" includes facility based non-competitive employment and unemployed but available for work = No. "Not Available" includes not available and not reported.
5A, 5B	"Medicaid (only Medicaid)" includes any consumer in Table 2A for whom a Medicaid MRO/PRTF claim was paid, but no State service encounter was reported. "Non-Medicaid Sources (only)" includes any consumer in Table 2A for whom no Medicaid claim was paid, but a State service encounter was reported. "People Served by Both Medicaid and Non-Medicaid" includes any consumer in Table 2A for whom both a Medicaid claim was paid and a State service encounter was reported. "Medicaid Status Not Available" includes all the remaining consumers in Table 2A.
6	Community Programs: Consumers served at beginning of year includes any "Registration", "New Episode", or "Ongoing" request that was active on first day of fiscal year. Community consumers admitted during the report period were identified by "Registration" and "New Episode" requests which had a start date during the fiscal year.
6	Other Psychiatric Inpatient: The state began contracting with Private Psychiatric Inpatient Facilities and the data is maintained in a different database. It is not possible to incorporate these individuals into the overall consumers served count as there is no mechanism to unduplicate across systems.
6	The decrease in Implementation of community based alternatives (waiver) has reduced the number of individuals served in PRTF.
12, 14A, 14B, 15A, 16, 17	Community consumers may receive authorization for a core bundle of services using a simplified authorization request type called "Registration." On these authorization requests, consumers were assigned a diagnostic category of "Mental Health," but they were not assigned specific DSM diagnoses; therefore, consumers whose only request type active during the SFY was Registration cannot be designated as SMI or SED. This yields reported counts and percentages of SMI/SED consumers that are artificially low because no "Registration-only" consumers are included. Such consumers could not be included in: Table 12 (percentage of persons served for the reporting period who met the federal definitions of serious mental illness and serious emotional disturbance and percentage of persons served by the SMHA for the reporting period who have a dual diagnosis of mental illness and substance abuse); Tables 14A/14B (total SMI-SED consumers served); Tables 16 & 17 (SMI-SED consumers receiving specified services).
15	Data reported for community consumers only. Reported Living Situation is the latest available for the SFY. Living situation is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. "Residential Care" includes living situations "Residential Care" and "PRTF" where the consumer's age was >= 18. "Children's Residential Treatment" includes living situations "Residential Care" and "PRTF" where the consumer's age was <18. "Crisis Residence" is not included among the response options for living situation in Georgia's information system. "NA" includes living situation Not Reported.
16	Total unduplicated number of adults with SMI and children with SED includes only community consumers. See also note for tables 12, 14a, 14b, 16, and 17.
16	ACT services have been increased due a U.S. DOJ Settlement Agreement.
20A	This table presents duplicated counts of consumers discharged from a state hospital adult mental health inpatient programs between 1/1/2011 - 12/31/2011, and those consumers' subsequent readmissions within 30/180 days of discharge which occurred during State fiscal year 7/1/2011 - 6/30/2012. Data is based on the consumer's age at discharge. "Race Not Available" includes "Other Single Race."

URS Table Number	General Notes
20B	This table presents duplicated counts of consumers discharged from a state hospital forensics/secure inpatient program between 1/1/2011 - 12/31/2011, and those consumers' subsequent readmissions within 30/180 days of discharge which occurred during State fiscal year 7/1/2011 - 6/30/2012. Data is based on the consumer's age at discharge. "Race Not Available" includes "Other Single Race."
