Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2011

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

| When is Employment Status Measured? | At Admission | At Discharge | Monthly | Quarterly | Other |
|-------------------------------------|--------------|--------------|---------|-----------|-------|
| ID | Yes | Yes | - | - | - |
| US | 43 | 29 | 3 | 4 | 34 |

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS/DIG Table 4.

State Notes:

Age None

Gender None

Overall This data was from WITS report extractions; see General Notes for additional detail.

Forensics included in "non forensic" data? Yes

Note:

US totals are based on states reporting.

This table uses data from URS/DIG Tables 20a and 20b.

State Notes:

See General Notes

**Structure Domain: Federal Mental Health Block Grant Expenditures for Non-Direct Service Activities, FY 2012
Idaho**

| Service | Non-Direct Block Grant Expenditures | % Total | US % Total |
|---------------------------------|-------------------------------------|---------|------------|
| Technical Assistance Activities | - | - | 35.8% |
| Planning Council | \$18,416 | 13.6% | 3.5% |
| Administration | \$98,444 | 72.7% | 24.7% |
| Data Collection/Reporting | - | - | 6.5% |
| Other Activities | \$18,500 | 13.7% | 29.5% |
| Total | \$135,360 | 100.0% | 100.0% |

Note: This table use data from URS/DIG Table 8.

State Notes:

Administration at 5% of block grant. MA Other activities include suicide prevention contract.

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2010

STATE Idaho

| | Expenditures: State | Percent of Total Expenditures: State | Expenditures: U.S. | Percent of Total Expenditures: U.S. |
|---------------------------|----------------------------|---|---------------------------|--|
| State Hospitals-Inpatient | \$27,000,000 | 47% | \$9,395,842,701 | 25% |
| Other 24-Hour Care | \$500,000 | 1% | \$6,759,114,778 | 18% |
| Ambulatory/Community | \$23,600,000 | 41% | \$20,604,143,980 | 55% |
| Total | \$57,400,000 | - | \$37,608,180,077 | - |

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2010 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2010

STATE Idaho

| Funding Source | Ambulatory/Community | | | State Hospital | | |
|---------------------------|----------------------|-----------------------|--------------------|----------------|-----------------------|--------------------|
| | State Revenues | Percent Total (State) | Percent Total (US) | State Revenues | Percent Total (State) | Percent Total (US) |
| Medicaid | \$1,500,000 | 6.2% | 58.4% | \$4,800,000 | 17.8% | 23.5% |
| Community MH Block Grant | \$1,800,000 | 7.5% | 1.4% | - | - | 0.0% |
| Other SAMHSA | \$900,000 | 3.7% | 0.4% | - | - | 0.0% |
| other Federal(non-SAMHSA) | - | - | 2.2% | \$2,000,000 | 7.4% | 4.6% |
| State | \$19,700,000 | 81.7% | 30.7% | \$19,000,000 | 70.4% | 67.4% |
| Other | \$200,000 | 0.8% | 4.8% | \$1,200,000 | 4.4% | 3.6% |
| Total | \$24,100,000 | 100.0% | 100.0% | \$27,000,000 | 100.0% | 100.0% |

Note:

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2010 reports - State Mental Health Agency Controlled Expenditures and Revenue, Table 24, 25, and 26.

This table does not show Revenues for state central office including Research, Training, and Administration expenses.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:

Idaho

| URS Table Number | General Notes |
|------------------|---|
| 2A | Pregnant Women data is collected on a point in time basis at intake. There is no WITS requirement to update this field over the course of treatment at this time. Data on this category is not reported for SFY 2012 due to reliability concerns; this will be addressed in future reporting years. |
| 4 | The total number of status (N=6417) in Table 4 exceeds the total number of clients (N=6083) in Table 3; this reflects multiple admissions by the same client reporting a different status at each admission or discharge. Client level data submissions should eliminate this issue in the future. Client Level reporting project will provide more accurate data and report last known employment status. |
| 5A | Data reported from WITS based on client group enrollment. The WITS vendor, FEI, has built additional reports to increase data accuracy. Due to the mechanism for collecting race and ethnicity (by client id) versus the methodology used to count clients in an unduplicated manner (using unique client number), the number of clients recorded by race or ethnicity may vary slightly from other counts. This will occur when the client is seen in two agencies, and has a different race or ethnicity recorded in each agency. Enrollment and dis-enrollment dates may overlap with multiple benefit types; current reporting structures are unable to differentiate the dually (duplication) reported clients. |
| 5A & 5B | There is currently duplication of client reported Medicaid status due to the way the report has been configured in WITS. This vulnerability was only recently identified with the ongoing use of the system and practice of clients moving from one regional geography to another taking place (recent programming change now allows for this). We are working with our contractor to unduplicated the count using the unique client ID (as the DIG extract will) however attempts at this time to reconfigure and rerun the report could confound the results reported thus far. It is also unclear how long it will take to correct the report filters and retest to extract unduplicated reliable data. It is anticipated that next year's extract will align with the client level extract which (Table 2A/B & 5A/B). |
| 6 | Some variation is to be expected. Enhancements to the State Hospital Admission & Discharge process have decreased length of stays and increased the number of participants able to be served. Total admissions to Community Hospital settings have increased due to waitlists at the state hospitals, despite aforementioned system enhancements. Average LOS of Children Discharged from state hospitals reflects a small number, with some variation expected. Average LOS of Children at the end of the year - Consultation with state hospital indicated that several clients had unusually long lengths of stay which skewed the data upward; this is expected to level out over time. Average LOS of adults discharged from State Hospitals decreased due to system enhancements with admissions and discharges. Average LOS of adults (in facility <1 year) who were state hospital residents at the end of the year has increased slightly due to severity of symptoms among long term residents unable to be discharged. |
| 9 & 11 | Lower response rate for surveys reported this year, smaller number makes reported scores vulnerable to rapid change. Plans to revise methodology and revise survey process (administration and response rate) in coming months via use of adult peer specialist employed by DHW Central Office. |
| 15 | Improved data capture reflects the increase in number of consumers in Jail/Correctional Facilities and/or Homeless Shelters. Behavioral Health system changes in the State of Idaho will continue to see the numbers of consumers served by multiple organizations (e.g. corrections, housing facilities) increase as reforms are implemented. Additional statutory changes have also impacted the SMHA's role in serving these clients and collaborating with other agencies. |
| 16 | Data provided by statewide contractor. Extracted from CMH Core Services Data SFY12. The race/ethnicity of children receiving these services is not captured. |
| 20A | This is the first year that Syringa House (Skilled Nursing Facility) was not included in data reporting. They are not considered a hospital and have a separate license as a skilled nursing facility. This will result in expected changes in the 75+ age range. |
