**Note:**  
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2011

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

Table 14a	
Age	None
Gender	None
Race	NH/PI experienced an increase of 16 persons for 8% increase within this category. However, NHPI represents less than 1% (0.61) of the total population which is consistent with state population estimates.
Overall	Due to small cell sizes, percent increase or decrease can have large swings year over year. This is not unexpected within Nevada's relatively small population.
Table 14b	
Age	None
Gender	None
Race	None
Overall	None

	Age NA	24	4	28	7,929	1,967	6,432	0.86	1.23	19

**Note:**

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

**Table 3 State Notes:**

Age None  
 Overall Some Duplication of clients between hospital & community. There may also be duplication between 0-17 and 18-20 due to children "aging out" to adult services with a different agency.  
 Gender None

**Table 6 State Notes:**

Hospital More children had longer stays as evidenced by the increase in the median stay from 49 days in FY11 to 86 days in FY12 thereby increasing the retention of open cases at the end of the fiscal year.  
 Other Inpatient None  
 Residential None  
 Community None  
 Overall If DCFS were parceled out, the LOS for children who were discharged from the state hospital in FY12 was 50 days and in FY11 it was 57 days, a rather stable figure.

**APPROPRIATENESS DOMAIN: Length of Stays in State Psychiatric Hospitals, Other Psychiatric Inpatient and Residential Treatment Centers for Children Settings, FY 2012**

\* Reported under Hispanic Ethnicity.

Forensics included in "non forensic" data? No

**Note:**

US totals are based on states reporting.

This table uses data from URS/DIG Tables 20a and 20b.

State Notes:

The number of "Non-Forensic (Voluntary and Civil-Involuntary)" discharges decreased at a greater rate than the number of readmits for the same population. Therefore, the rate would appear higher

\* Reported under Hispanic Ethnicity.

Forensics included in "non forensic" data? No

**Note:**

US totals are based on states reporting.

This table uses data from URS/DIG Tables 20a and 20b.

**State Notes:**

The number of "Non-Forensic (Voluntary and Civil-Involuntary)" discharges decreased at a greater rate than the number of readmits for the same population. Therefore, the rate would appear higher

**Structure Domain: Federal Mental Health Block Grant Expenditures for Non-Direct Service Activities, FY 2012  
Nevada**

Service	Non-Direct Block Grant Expenditures	% Total	US % Total
Technical Assistance Activities	-	-	35.8%
Planning Council	\$211,093	17.6%	3.5%
Administration	\$47,101	3.9%	24.7%
Data Collection/Reporting	\$15,000	1.2%	6.5%
Other Activities	\$929,448	77.3%	29.5%
Total	\$1,202,642	100.0%	100.0%

Note: This table use data from URS/DIG Table 8.

**State Notes:**

As the number of individuals served and length of stay has dropped, additional funds for non-direct services has increased.

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2010**

**STATE Nevada**

	<b>Expenditures: State</b>	<b>Percent of Total Expenditures: State</b>	<b>Expenditures: U.S.</b>	<b>Percent of Total Expenditures: U.S.</b>
State Hospitals-Inpatient	\$69,900,000	38%	\$9,395,842,701	25%
Other 24-Hour Care	\$20,500,000	11%	\$6,759,114,778	18%
Ambulatory/Community	\$83,100,000	45%	\$20,604,143,980	55%
Total	\$184,000,000	-	\$37,608,180,077	-

**Note:**

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2010 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:

<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2010**

STATE Nevada

URS Table Number	General Notes
14A	<p>NAC 433.040 "Adult with a serious mental illness" and "child with a serious emotional disturbance" defined for counting purposes. (NRS 433.324) Each division facility shall use the following definitions to count the number of persons in this state who are adults with a serious mental illness or children with a serious emotional disturbance: 1. "Adult with a serious mental illness" means a person who is at least 18 years old and has been diagnosed within the immediately preceding 12 months as having a mental, behavioral or emotional disorder as defined in the "Diagnostic and Statistical Manual of Mental Disorders," as adopted by reference in NAC 433.050, other than an addictive disorder, mental retardation, irreversible dementia or a disorder caused by an abuse of alcohol or drugs, which interferes with or limits one or more major life activities of the adult. 2. "Child with a serious emotional disturbance" means a person who is less than 18 years old and has been diagnosed within the immediately preceding 12 months as having a mental, behavioral or emotional disorder as defined in the "Diagnostic and Statistical Manual of Mental Disorders," as adopted by reference in NAC 433.050, other than a mental disorder designated as a Code V disorder in the Manual, a developmental disorder or a disorder caused by an abuse of alcohol or drugs, which substantially interferes with or limits the child from developing social, behavioral, cognitive, communicative or adaptive skills or his activities relating to family, school or community. The term does not include a child with a disorder which is temporary or is an expected response to stressful events. (Added to NAC by Common on Men. Health &amp; Men. Retardation, eff. 8-24-88; A 11-19-90; R128-97, 11-14-97)</p>
14A	<p>NRS 433B.045 "Child with an emotional disturbance" defined: "Child with an emotional disturbance" means a child whose progressive development of personality is interfered with or arrested by mental disorder so that he shows impairment in the capacity expected of him for his age and endowment for: 1. A reasonably accurate perception of the world around him; 2. Control of his impulses; 3. Satisfying and satisfactory relationships with others; 4. Learning; or 5. Any combination of these factors. (Added to NRS by 1993, 2708)— (Substituted in revision for NRS 433B.080)</p>
14A	<p>402.36 Severe Emotional Disturbance (SED): 1. Persons from birth through 48 months who currently or at any time during the past year (continuous 12-month period) have a: a). DC:0-3 Axis I diagnostic category in place of a DSM Axis I diagnostic category; or b). DC:0-3 Axis II PIR-GAS score of 40 or less (the label for a PIR-GAS score of 40 is "Disturbed"); or 2. Persons from 4 to age 18 who currently or at any time during the past year (continuous 12-month period) have a: a). Diagnosable mental or behavioral disorder or diagnostic criteria that meets the coding and definition criteria specified in the DSM (excluding substance abuse or addictive disorders, irreversible dementias, mental retardation, developmental disorders, and V codes, unless they co-occur with a serious mental disorder that meets DSM criteria); and have a: b). Functional impairment which substantially interferes with or limits the child from achieving or maintaining one or more developmentally appropriate social, behavioral, cognitive, communicative or adaptive skill. Functional impairments of episodic, recurrent, and persistent features are included, however may vary in term of severity and disabling effects unless they are temporary and an expected response to stressful events in the environment. Children who would have met functional impairment criteria during the referenced year without the benefit of treatment or other support services are included in this definition.3. SED determinations are made by a Qualified Mental Health Professional (QMHP) within the scope of their practice under state law and expertise.</p>
17	<p>At present, Nevada's AVATAR system will not report the data for this table. Upgrades of the system will be accomplished over the next year and this data will be addressed.</p>
20, 21	<p>Nevada's population is experiencing changes that have influenced the number of individuals served overall. Changes in treatment options and community services have also influenced this data.</p>
