URS Table Number	General Notes
All	NH was not able to re-new our previous contract to de-duplicate client counts. Numbers will not be comparable to past years.
3	Counts this year are not de-duplicated as in past years. Counts for Other Psychiatric Inpatient came directly from the facility and are duplicated in Community Mental Health Programs. There have been no changes to the Other Psychiatric Inpatient facility and larger numbers are likely due to not being able to de-duplicate. Counts for Residential Treatment Centers were not available in time this year and could not have been de-duplicated.
9, 11, 11a, 19A, 19B	These tables are answered through NH's consumers survey. The survey is a stratified random sample and resulting numbers are weighted. Totals occasionally do not add up due to the weighting and rounding issues.
