| When is Employment Status Measured? | At Admission | At Discharge | Monthly | Quarterly | Other |
|-------------------------------------|--------------|--------------|---------|-----------|--|
| OK | Yes | Yes | - | - | At update (every 6 months), At level of care change. |
| US | 43 | 29 | 3 | 4 | 34 |

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS/DIG Table 4.

Oklahoma

| URS Table Number | General Notes |
|-------------------------|--|
| 2A, 2B, 3, 14A, 14B, 15 | For the first time this year, table 2a/2b were populated using Oklahoma's DIG MH client-level data (CLD) submission. In previous years, the URS tables counted only individuals receiving services at mental health agencies. The CLD counts individuals receiving a mental health service at mental health or substance abuse agencies. This inclusion of consumers at substance abuse agencies that receive mental health services has increased the total number of consumers served in SFY2012. |
| 6 | In the past we have not been reporting any mental health treatment as Residential Treatment. To be consistent with the CLD reporting, our Children's Recovery Center is now being reported as Residential Treatment. This change explains the increases in the number of children served in Residential Treatment Centers (RTC) and the average LOS for RTCs |
| 8 | In FY11 we had restricted our travel due to the budget situation. The FY12 includes an increase of \$19, 700 worth of travel. The FY12 also includes an increase of around \$38,400 in printing and administering the consumer surveys. The rest of the increase in FY12 is a small increase in personnel costs. |
| 11, 11A | The FY12 results are a true reflection of the consumer assessments of the services they received (for the FY11 reporting, neutral responses were counted as positive scores thus lowering the reported percent). |
| 17 | The FY11 number of consumers receiving Integrated Treatment for Dual Diagnosis is an outlier and the low number is reflective of budget cuts. The FY12 number shows we are restoring this service as the economy gets better. |
| 14A, 14B | SMI means an individual 18 years of age or older who meets the following criteria: A. Currently or at any time during the past year have had a diagnosable mental, behavioral or emotional disorder of sufficient duration to meet criteria specified within DSM-IV with the exception of "V" codes, substance use disorders, and developmental disorders, unless they co-occur with another diagnosable serious mental illness; And B. Has at least (a) moderate impairment in at least four, (b) severe impairment in two or (c) extreme impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a person's life. Marked change in mood. Depression and/or anxiety incapacitates person. Emotional responses are inappropriate to the situation. 2. Thinking: Severe impairment in concentration, persistence, and pace. Frequent or consistent interference with daily life due to impaired thinking. Presence of delusions and/or hallucinations. Frequent substitution of fantasy for reality. 3. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. 4. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. 5. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Unable to obtain or maintain employment and/or conduct daily living chores such as care of immediate living environment. 6. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Disregard for safety of others. Destructive to property. Involvement with law enforcement. 7. Self Care/Basic Needs: Disruption in the ability to provide for his/her own needs such as food, clothing, shelter, and transportation. Assistance required in obtaining housing, food and/or clothing. Unable to maintain hygiene, diet, clothing, and prepare food. Or C. Has a duration of illness of at least one year and (a) at least moderate impairment in two, or (b) severe impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a person's life. Marked change in mood. Depression and/or anxiety incapacitates person. Emotional responses are inappropriate to the situation. 2. Thinking: Severe impairment in concentration, persistence and pace. Frequent or consistent interference with daily life due to impaired thinking. Presence of delusions and/or hallucinations. Frequent substitution of fantasy for reality. 3. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. 4. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. 5. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Unable to obtain or maintain employment and/or conduct daily living chores such as, care of immediate living environment. 6. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Disregard for safety of others. Destructive to property. Involvement with law enforcement. 7. Self Care/Basic Needs: Disruption in the ability to provide for his/her own needs such as food, clothing, shelter and transportation. Assistance required in obtaining housing, food and/or clothing. Unable to maintain hygiene, diet, clothing, and prepare food. Note: Individuals with a primary diagnosis of substance abuse or developmental disorder are excluded from this definition. Individuals may show less impairment if they are on medications or receiving other treatment services that reduce the symptoms of the illness, but moderate to severe impairment in functioning would result with discontinuation of the medications. |

| URS Table Number | General Notes |
|------------------|---|
| 14A, 14B | <p>SED: Individuals from birth to seventeen years of age who meet the following criteria comprise the target population: A. A child who possesses a diagnosable, serious disorder under DSM-IV such as pervasive developmental disorder, childhood schizophrenia, schizophrenia of adult-type manifesting in adolescence, conduct disorder, affective disorder, other disruptive behaviors, or other disorders with serious medical implications such as eating disorders, or persistent involvement with alcohol or drugs; And B. Who has a functioning level which includes: (a) a moderate impairment in at least four, (b) severe impairment in two or (c) extreme impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a child's life. Frustration, anger, loneliness and boredom persist beyond the precipitating situation. Symptoms of distress are pervasive and do not respond to encouragement or reassurance. 2. Thinking: Disruption of daily life due to impaired thoughts and thinking process. Inability to distinguish between fantasy and reality. Unusual thoughts or attachments to objects. 3. Substance Use: Frequent difficulties due to substance use. Repeated use of substances causing difficulty at home or in school. 4. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. Lacks family support. Abused or neglected. 5. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. Lacks age appropriate social skills. 6. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Persistent behavior problems. Failure, suspension or expelled from school. 7. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Shows little concern for consequences of actions. Delinquent acts and/or frequent contact with law enforcement. 8. Self Care/Basic Needs: The ability to care for self is considerably below expectation. 9. Caregiver Resources: Caregiver has difficulties providing for the child's basic needs or developmental needs such that there is a negative impact on the child's level of functioning. Or C. Who has a duration of illness for at least one year and has (a) functioning level of moderate impairment in at least two, or (b) severe impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a child's life. Frustration, anger, loneliness, and boredom persist beyond the precipitating situation. Symptoms of distress are pervasive and do not respond to encouragement or reassurance. 2. Thinking: Disruption of daily life due to impaired thoughts and thinking process. Inability to distinguish between fantasy and reality. Unusual thoughts or attachments to objects. 3. Substance Use: Frequent difficulties due to substance use. Repeated use of substances causing difficulty at home or in school. 4. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. Lacks family support. Abused or neglected. 5. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. Lacks age appropriate social skills. 6. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Persistent behavior problems. Failure, suspension or expelled from school. 7. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules and strong mores. Shows little concern for consequences of actions. Delinquent acts and/or frequent contact with law enforcement. 8. Self Care/Basic Needs: The ability to care for self is considerably below expectation. 9. Caregiver Resources: Caregiver has difficulties in providing for the child's basic needs or developmental needs such that there is a negative impact on the child's level of functioning. Note: Children with a primary diagnosis of developmental disorders are excluded from this definition. Individuals may show less impairment if they are on medications or involved in other treatment services that reduce the symptoms of the illness but moderate to severe impairment in functioning would result with discontinuation of the medications or current treatment.</p> |
