Puerto Rico Mental Health and Anti Addiction Services Administration	Road No. 2 Km 8.2, Bo. Juan Sanchez, Bayamón, PR 00960	Statewide	\$2,527,729	\$2,800,000

Puerto Rico

URS Table Number	General Notes
4	The increased in total number of unemployed consumers and consumers not in labor force are due to during fiscal year 2012 a total of 2,299 consumers were employed part or full time. In Puerto Rico the unemployment rate is 13.6% and the labor force participation rate is 39.2% (PR Department of Labor and Human Resources, September 2012). The total number of consumers not in labor force includes: housewives, retired, disabled, students and incarcerated.
6	Total number of consumers served in community programs includes programs for children, adolescents and adults. For FY 2012 the planning office convened a workgroup to deurate active consumers' listings among the community mental health centers resulting in the 18% decrease of change. The decrease in total Number of Consumers Served in Residential Treatment Centers at the beginning of the year and Total Admissions to Residential Treatment Centers During the Year are due to for FY 2011 the total of consumers served in RTC's at the beginning of the year included other facilities that are no longer providing services. The increase in Average LOS of adults discharged from State Hospitals is due to the SMI population in state hospitals is characterized by prolonged stays at the facilities.
11	Percent of adults reporting positively about outcomes is less for FY 2012. SMI population is in need of a comprehensive treatment plan including the operationalization of it.
12	The large increase in the percent of adults meeting Federal definition of SMI is due to providers awareness in providing precise diagnoses and GAF scales meant better reporting for table 12; The decrease in percent of children/adolescents meeting Federal definition of SED is due to children and adolescents served decreased during FY 2011-2012 having repercussions in the SED population served; The increase in Percent of children served by the SMHA with co-occurring MH/SA diagnoses is due to the use of better definitions to identify children with co-occurring diagnoses increased the percentage of served minors.
14a	A total of 21,065 consumers were served across the agency during FY 2012. This fact explains the 27% increase of SMI-SED consumers served. Add definition, and resume profile items.
15	The total number of homeless consumers increased for FY 2012. Outreach activities done through De Vuelta a la Vida Program increased the number of homeless adults admitted to treatment.
