URS Table Number	General Notes
2, 3, & 6	RI has no state psychiatric hospital, but rather adult psychiatric/forensic units in a general hospital and acute inpatient care contracted through private hospitals
6	The increases in Total Number of Consumers Served in State Hospital at the beginning of the Year, Average LOS of adults discharged from State Hospitals and Average LOS of adults (in facility < 1 year) who were state hospital residents at the end of the year are due to a slight change (improvement) in how we define which of the long-term clients in our general hospital are considered psychiatric. This change has increased the counts of long-term psychiatric patients, which in turn has caused the average LOS to increase.
2, 3, 6, 12, 14, & 15	Only children served through the community mental health centers are included.
16	Supported Housing, along with employment, has been a particular focus in RI given the relatively high homelessness and unemployment we have experienced in the past few years. The increase in the number of consumers receiving Supported Housing services (from 2011) is accurate, however please note this is just a single month snapshot of clients served. It does not reflect totals served across the FY, which may show less of an increase overall.
16	In the Fall of 2011, RI discontinued our ACT teams and instead implemented the RI Consumer System of Care -- RICSOC. This provides a coordinated team approach to treatment for over half of our SMI clients, though with less stringent requirements than ACT with regard to things such as treatment hours and client/staff ratios.
21	Table 21 unavailable. The Division does not have access to data regarding inpatient psychiatric hospitalizations other than those that are state-funded.
9, 11, 11a, 16, 19a, 19b, 20a, 20b	Although we attempt to provide children's data for applicable tables, and are able to include children's counts of those served through the Community Mental Health Organizations, we do not have access to many of the measures relating to children for these tables.
