Note:

Are Client Counts Unduplicated? Duplicated between Hospitals and Community Programs **Number of States with Unduplicated Counts** 43

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2011

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age None
 Gender None
 Race In Vermont, a single race code is used for Asian/Native Hawaiian/Pacific Islander. Typically these clients are of Asian origin.
 Overall Counts are based on a client file that includes all CMH clients for FY2012. A small number of individuals may be counted more than once due to movement among community programs or movement between hospitals and community.

Table 2b

Age None
 Gender None
 Race In Vermont, a single race code is used for Asian/Native Hawaiian/Pacific Islander. Typically these clients are of Asian origin.
 Overall Counts are based on a client file that includes all CMH clients for FY2012. A small number of individuals may be counted more than once due to movement among community programs or movement between hospitals and community.

Vermont

URS Table Number	General Notes
4 & 4a	Employment status for adults (18-64) with SMI is based on data linkage with the state Department of Labor for FY2012. Employment status for other MH clients is based on case manager monthly service reports. Counts are based on a client file that includes all CMH clients for FY2012. A small number of individuals may be counted more than once due to movement among community programs or movement between hospitals and community.
