URS Table Number	General Notes
4	Since last year, changes were made to the format for reporting of employment status to allow more accurate identification of "Unemployed" vs. "Not in labor force". The distribution of employment status in prior years will be significantly different from this year's distribution.
5A	Due to State budget cuts, funding for non-Medicaid clients has been significantly reduced. As a result, the number of clients served in the "non-Medicaid" and "both Medicaid and Non-Medicaid" categories has declined since last year.
6	We are aware of anomalies in the data reporting and are working to clarify the undercounts due to missing data from several submitters.
15	Since last year, changes were made to the format for reporting of living situation to, in part, conform to requirements for reporting Client Level Data. The distribution of living situation in prior years will be significantly different from this year's distribution.
16 and 17	Washington State didn't conduct EBP survey in 2012, due to the changes and requirement of legislatures. We are in the process to re-design the EBP survey that will be implemented soon.
