\* Reported under Hispanic Ethnicity.

Forensics included in "non forensic" data? No

**Note:**

US totals are based on states reporting.

This table uses data from URS/DIG Tables 20a and 20b.

State Notes:

State Hospital is Alaska Psychiatric Institute (API). Age as of Date of Admission. All patients who have readmissions within 30 days are also counted in the column for readmission within 180 days.

**Structure Domain: Federal Mental Health Block Grant Expenditures for Non-Direct Service Activities, FY 2013**  
**Alaska**

Service	Non-Direct Block Grant Expenditures	% Total	US % Total
Technical Assistance Activities	-	-	40.1%
Planning Council	\$42,971	91.1%	5.2%
Administration	\$4,182	8.9%	19.8%
Data Collection/Reporting	-	-	6.7%
Other Activities	-	-	28.2%
Total	\$47,153	100.0%	100.0%

Note: This table use data from URS/DIG Table 8.

**State Notes:**

None

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2012**

**STATE Alaska**

	<b>Expenditures: State</b>	<b>Percent of Total Expenditures: State</b>	<b>Expenditures: U.S.</b>	<b>Percent of Total Expenditures: U.S.</b>
State Hospitals-Inpatient	\$32,213,100	14%	\$9,259,257,316	23%
Other 24-Hour Care	\$84,206,000	35%	\$7,471,957,567	19%
Ambulatory/Community	\$116,019,800	49%	\$21,937,689,085	55%
Total	\$238,174,700	-	\$39,539,673,787	-

**Note:**

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2012 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:  
<http://www.nri-incdata.org/>

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2012**

STATE Alaska

Funding Source	Ambulatory/Community			State Hospital		
	State Revenues	Percent Total (State)	Percent Total (US)	State Revenues	Percent Total (State)	Percent Total (US)
Medicaid	\$156,837,200	78.3%	59.1%	\$17,303,600	53.7%	23.0%
Community MH Block Grant	\$612,431	0.3%	1.4%	-	-	0.0%

Alaska

URS Table Number	General Notes
All	Reporting year is State Fiscal Year (SFY 2013)
All	<p>Data Sources and Limitations: Community Programs: The Division uses an electronic health records system (the Alaska Automated Information Management System (AKAIMS)) to collect and report Community Program data. However, AKAIMS does not include information on youth or adults who receive illness self management (ISM) services. Starting in FY12, and continuing for FY13, the number of individuals who received ISM services (based on grantee quarterly reports) was added to the AKAIMS counts for the total number individuals who received services. Due to this change in methodology, caution should be exercised when making comparisons with prior year data. The FY13 ISM count was 3103 (3079 SMI and 24 SED); the FY12 ISM count was 2,420 (all SMI). The Division has improved data collection and reporting of demographic information for clients receiving ISM services; however, many of the clients who received ISM services are still included in the "Not Available" category for age, gender, race, ethnicity, employment status, and living situation. Continued improvements in data collection are anticipated for FY14 reporting. The unduplicated counts of "clients served" reflect the number of clients who received services through program enrollment. These counts do not include clients who received a mental health service but were not enrolled in a program.</p>
All	State Psych Hospital: Data source is the Alaska Psychiatric Institute (API) electronic health records system.
All	<p>Other Psych Inpatient: This includes Designated Evaluation &amp; Treatment (DET) and Acute Psych: DET: High Risk Inpatient Psychiatric Diversion from API. Data is collected and reported using an Access database. FY13 data is not yet available; FY13 URS Tables include the FY12 DET data. Acute Psych: Data is from STARS/MMIS (Medicaid claims data). Includes in- and out-of-state clients. The FY13 unduplicated client count is based on Medicaid claims that have a valid Division of Behavioral Health collocation code; to be counted, a client must have had at least one Medicaid paid claim).</p>
All	<p>RPTC: Data is from STARS/MMIS (Medicaid claims data). Includes in-and out-of-state clients. The FY13 unduplicated client count is based on Medicaid claims that have a valid Division of Behavioral Health collocation code; to be counted, a client must have had at least one Medicaid paid claim.</p>
All	<p>Age - Unduplicated Counts: For Community Program unduplicated client counts, age is assigned as of the middle of the reporting period (SFY 2013 = Age as of December 31, 2012). For API, Other Psych Inpatient, and RPTC unduplicated client counts (except those in Table 6), age is assigned as of the middle of the reporting period; the Table 6 unduplicated counts have age (child vs adult) assigned as of the date of admission. Age Duplicated Counts: For all duplicated client counts, age is assigned as of the date of admission.</p>
All	<p>Race/Ethnicity: For Community Programs, 'Hispanic' data is collected separately from 'Race' data (i.e., two separate questions); for API, Acute Psych, and RPTCs, 'Hispanic' was collected as part of the 'Race' question; and for DET, neither 'Race' nor 'Hispanic' data was collected. For consistency in reporting in the URS Tables, the API, Acute Psych, and RPTC counts of 'Hispanic' (as a 'Race') were instead entered as being a 'Hispanic' response to the Ethnicity question and were assigned 'Race Not Available'; the balance were assigned an Ethnicity of 'Hispanic Origin Not Available.' All of the DET counts were assigned an Ethnicity of 'Hispanic Origin Not Available.'</p>
5A/5B	<p>Funding Support - Medicaid Status: For consistency in reporting across service settings, the rows reflect 'Primary Expected Payment Source' = Medicaid or Non-Medicaid. We are not able to identify clients with Medicaid Only, Non-Medicaid Only, or both Medicaid and Non-Medicaid. For most clients, we are able to determine if their primary expected payment source is Medicaid or Non-Medicaid. In the labeled "Medicaid Only," we are reporting the number of clients with "Primary Expected Payment Source = Medicaid," and in the labeled "Non-Medicaid Only," we are reporting the number of clients with "Primary Expected Payment Source = Non-Medicaid". We used the following methodology for each service setting: For Community Programs: In AKAIMS, the primary expected payment source is collected. If the client's primary expected payment source is Medicaid, then the client is counted under "Medicaid Only;" if the client's primary expected payment source is not Medicaid, then the client is counted under "Non-Medicaid Only." Starting in FY13, the clients receiving ISM services are counted under "Non-Medicaid Only" because clients are not expected to pay for these services (note: in FY12, clients receiving ISM services were counted under "Medicaid Status Unknown"). For State Psych Hospital (API): the primary and secondary insurance types are collected. If the client's primary insurance type is Medicaid, then the client is counted under "Medicaid Only;" if the client's primary insurance type is not Medicaid, then the client is counted under "Non-Medicaid Only" (this includes clients who have Medicaid as a secondary insurance type). For RPTCs and Acute Psych: the STARS/MMIS Medicaid claims data was used; the assumption is made that the primary expected payment source for all clients is Medicaid, so all clients are counted under "Medicaid Only." For DET: Medicaid status is not collected, so all clients are counted under Medicaid Status Not Available.</p>

URS Table Number	General Notes
6	<p>State Hospital: The FY13 decreased length-of-stay reflects the Division's efforts to more effectively manage API as an Acute Treatment Facility and build sufficient community-based resources to maintain individuals within their home community. Also, API has relatively few patients with long lengths of stay (LOS), and depending on when these patients are discharged, the average and median LOS may vary considerably from year to year. RPTC: Relatively few adults receive treatment at RPTCs, consequently the average and median length of stay for adults may vary considerably from year to year.</p>
12	<p>Percentage of Persons Served who has a Dual Diagnosis (Co-Occurring Mental Health and Substance Abuse): We are not yet able to report the count or percentage of clients who have a Dual Diagnosis. We are able to report counts and percentages of clients who are "Treated for Co-Occurring Disorders." These counts are based on the client's admission record program type assignment of "Treating here for Both Mental Health &amp; Substance Abuse." Percentages are based on Community Program data only.</p>
16	<p>EBP data is reported for Community Programs only. The Division is working to improve data collection and reporting capability relative to clients receiving EBP services. Until we are better able to report demographic information for clients receiving EBP services, the client counts in Table 16 are included in the "Not Available" category for age, gender, race, and ethnicity. In FY13, the number of SMI adults receiving supported housing decreased by 25. This was due to a closure of 25 housing units in Fairbanks; the closure reflects sustainability issues that have risen from unchanging service reimbursement rates and poor management. The Department of Health and Social Services is working with all stakeholders to find new operators to get those housing units reopened as quickly as possible. In FY13, there also was a decrease in Multi-Systemic Therapy. This reflects a lack of staffing to provide MST services and a shift of focus to other EBPs. Alaska is experiencing an increase in family services beyond MST; for example, there is an ongoing expansion of "Parenting with Love &amp; Limits (PLL)" services. In FY13, 189 SED youth received PLL services.</p>
17	<p>EBP data is reported for Community Programs only. The Division is working to improve data collection and reporting capability relative to clients receiving EBP services. Until we are better able to report demographic information for clients receiving EBP services, the client counts in Table 17 are included in the "Not Available" category for age, gender, race, and ethnicity.</p>
