California

URS Table Number	General Notes
6	California Department of State Hospitals serves an ever changing population, from year to year. Because of this, our Average Length of Stay (ALOS) does not remain static. Additionally, we have very few patients age 0-17, so minor fluctuations in this population can have considerable impact on the ALOS.
11, 19a, 19b	Sample size/response rate: for both the adult and children/family surveys, the number of surveys attempted and the number of contacts made are not available.
15	California's Public Safety Realignment Act of 2011 transferred jurisdiction and funding for managing lower-level criminal offenders from the State to the counties. Under Realignment, for example, certain offenders began serving their felony sentences in county jail rather than state prison resulting in a 49% increase in clients that were in jail/correctional facility from the 2012 URS reporting.
