Colorado

| URS Table Number | General Notes |
|------------------|--|
| 9 | For the adult consumer survey, an additional 1,810 surveys were provided in FY13 compared to FY12, resulting in a completed survey increase of 942 surveys. For the youth/adolescent consumer survey, an additional 690 surveys were provided in FY13, resulting in an increased response of 455 surveys between FY12 and FY13. No other methodological changes were present. |
| 11 | Number of surveys attempted: FY13 (adult N=21,240/youth N=10,735) represents the number of consumers seen during the 3-week survey period (all consumers seen were offered a survey during this 3-week period). Number of survey contacts made: same as number of surveys attempted. Number of surveys completed: FY13 (adult N=3,338/youth N=1,322) completed surveys. FY12 (adult N=2,396/youth N=918) completed surveys. Response rate: given the increased survey response, response rate went from 11% in FY12 to 15% in FY13 for adults and 9% in FY12 to 12% in FY13 for youth. |
| 12 | We continued to see an increase in percentage of children served with co-occurring disorders from 2012 to 2013. FY 2013 was the first full year Colorado collected data from residential treatment facilities and clients at this level of care are more likely to have co-occurring disorders than clients in outpatient services. |
| 15 | In the past fiscal year OBH has expanded PATH (Projects for Assistance in Transition from Homelessness) funding which has led to increased services and outreach for homeless persons with mental health needs. |
| 16 | Supported Employment: three of the 17 community mental health centers in Colorado conduct fidelity monitoring on their Supported Employment Program via the Mental Health Transformation Grant. These three centers include Mental Health Partners, Mental Health Center of Denver, and Jefferson Center for Mental Health. The Dartmouth-developed fidelity protocol for the Individual Placement and Support (IPS) model is used to measure fidelity annually and fidelity scores are submitted to the Colorado Office of Behavioral Health (OBH). OBH conducts the fidelity review. The supported employment program implementation at the three centers is consistent with the SAMHSA EBP Toolkit and staff are trained in the EBP. |
| 16 | Assertive Community Treatment: three of the 17 community mental health centers in Colorado conduct fidelity monitoring on their Assertive Community Treatment Program that is funded through the State General Fund. These three centers include Mental Health Partners, Mental Health Center of Denver, and San Luis Valley Mental Health Center. They use a modified version of the Dartmouth Assertive Community Treatment Scale (DACTS) to measure fidelity and fidelity scores are submitted to the Colorado Office of Behavioral Health (OBH) annually. The ACT program implementation at the three centers is consistent (with limited Colorado-specific variations in the fidelity protocol) with the SAMHSA EBP Toolkit and staffs are trained in the EBP. |
| 16 | Supported Housing: the total number of individuals receiving supported housing this year has dropped from last year. The same agencies are providing the services, but the number of clients at each agency has decreased. We are working with each CMHC to better understand the change in numbers for this EBP. |
| 17 | The low numbers for Family Psychoeducation for one CMHC has been identified as a data reporting issue. This process has been reviewed with the CMHC and we expect more accurate data to be received from that CMHC over the next reporting year. |
| 19a & 19b | Total Number of people from which the sample was drawn: FY13 (adult N=21,240/youth N=10,735) represents the number of consumers seen during the 3-week survey period (all consumers seen were offered a survey during this 3-week period). Sample size: FY13 (adult N=21,240/youth N=10,735) these numbers represent the number of consumers seen during the 3-week survey period (all consumers seen were offered a survey during this 3-week period). Number of survey contacts made: For FY13 (adult N=21,240/youth N=10,735), represents the number of consumers seen during the 3-week survey period (all consumers seen were offered a survey during this 3-week period). Number of surveys complete: FY13 (adult N=3,338/youth N=1,322) completed surveys. Response rate: Given the increased survey response, response rate went from 11% in FY12 to 15% in FY13 for Adults and 9% in FY12 to 12% in FY13 for Youth. |
