General Notes FY 2013

Louisiana

URS Table Number	General Notes
3	During Fiscal Year 2013, Louisiana decreased the number of hospital beds in state inpatient psychiatric facilities and closed one state hospital with a subsequent decrease in the number of persons served in state run facilities. The managed care system expanded capacity of inpatient hospital level care to include private inpatient facilities reducing the number of admissions to the state hospital system.
4	Following implementation of the new Electronic Behavioral Health Record (EBHR) system during fiscal year 2012, the state has experienced disturbances in data collection, particularly in its claims and clinical data systems. An effort has been made to improve data collection resulting in a decrease in the number of consumers missing employment status and corresponding increase in the number of consumers reported employed or unemployed.
5	Following implementation of the new Electronic Behavioral Health Record (EBHR) system during fiscal year 2012, the state has experienced disturbances in data collection, particularly in its claims and clinical data systems. An effort has been made to improve data collection resulting in a decrease in the number of consumers missing funding status and corresponding increase in the number of consumers reported Medicaid or Non-Medicaid funding.
6	Regarding total admissions to state hospital decrease: During Fiscal Year 2013, Louisiana decreased the number of hospital beds in state inpatient psychiatric facilities and closed one state hospital. Subsequently, this decreased the number of admissions to state run facilities. The managed care system expanded capacity of inpatient hospital level care to include private inpatient facilities reducing the number of admissions to the state hospital system. Regarding total number of consumers served in community programs at the beginning of the year decrease: Following implementation of the new Electronic Behavioral Health Record (EBHR) system during fiscal year 2012, the state has experienced disturbances in data collection, particularly in its claims and clinical data systems. Community Program Admissions increase: Following implementation of the new Electronic Behavioral Health Record (EBHR) system during fiscal year 2012, the state has experienced disturbances in data collection, particularly in its claims and clinical data systems. There has been a change from previous years in definition and method of calculation of admission dates and discharge dates, resulting in an increase in identified admitted clients. Regarding Average LOS of Children discharged: Increase in community based services available for severely disabled children allowed more children to be discharged from state hospitals and served in the community. During Fiscal Year 2013, Louisiana closed the state hospital child/youth beds. Regarding Average LOS of Children who was state hospital residents at the end of the year: During Fiscal Year 2013, Louisiana closed all state hospital child/youth beds. Regarding Average LOS of Adults discharged: During Fiscal Year 2013, Louisiana decreased the number of hospital beds in state inpatient psychiatric facilities and closed one state hospital with a subsequent decrease in the number of persons served in state run facilities. The managed care system expanded capacity of inpatient hospital level care to include private inpatient facilities.
8	The decrease in total MHBG Expenditures for Non-Direct Service Activities is due to there was a change in methodology for calculating Table 8 for the current report.
12	Following implementation of the new Electronic Behavioral Health Record (EBHR) system during fiscal year 2012, the state has experienced disturbances in data collection, particularly in its claims and clinical data systems. An effort has been made to improve data collection; nonetheless there are still a high number of clients missing SMI/SED identification.
14A	Following implementation of the new Electronic Behavioral Health Record (EBHR) system during fiscal year 2012, the state has experienced disturbances in data collection, particularly in its claims and clinical data systems. An effort has been made to improve data collection; nonetheless there are still a high number of clients missing SMI/SED identification.
15	Following the implementation of the new Electronic Behavioral Health Record (EBHR) system during fiscal year 2012, the state has experienced disturbances in data collection, particularly in its claims and clinical data systems. An effort has been made to improve data collection; nonetheless there are still a high number of clients missing residence type information. This resulting in decreased in total number of consumers living in Private Residence and Total number of consumers in Jail/Correctional Facility.
16 & 17	EBPs are practiced in some areas of the state but not others. The use of fidelity measures differs from region to region within the state. In addition, staff training and the use of toolkits varies across the state. Format for data collection of age, gender, race and ethnicity for individual services differs from data collection for total count so these have been collapsed into 'unavailable' data.

URS Table Number	General Notes
19A & 19B	Data is from assessments administered in clinics as follows: for new clients, assessments are administered within 30 days of admission, then at three months. Follow-up assessments are administered every six months thereafter. For existing clients, an initial assessment is administered and then follow-up assessments every six months thereafter. This data is currently collected using TOMS Telesage system. We are working to include these questions in our outpatient clinic data to ensure collection on all persons in service.
19A	Source of adult criminal justice and Sources of children/youth criminal justice information data is from assessments administered in clinics; Mental health programs included Adults receiving clinic services and Children and youth receiving clinic services; Region for which adult and children/youth are reported Data is not collected in JPHSA, MHSD, or SCLHSA clinics.
19B	Source of School Attendance Information Data is from assessments administered in clinics; Mental health programs include Children and youth receiving clinic services; Region for which data are reported Data is not collected in JPHSA, MHSD, or SCLHSA clinics.
