Note:

Are Client Counts Unduplicated? Unduplicated **Number of States with Unduplicated Counts** 43
 Duplicated between Hospitals and Community

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2012

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age Age was calculated as follows: [(December 31, 2012– (Consumer Birth Date)) / 365.25]
 Gender If multiple genders listed, the most recent non-missing gender was reported.
 Race If more than one race/ethnicity listed, the most recent non-missing race/ethnicity was reported. For race listed as "Other", reported in "Unknown".
 Overall See General Notes

Table 2b

Age Age was calculated as follows: [(December 31, 2012– (Consumer Birth Date)) / 365.25]
 Gender If multiple genders listed, the most recent non-missing gender was reported.
 Race If more than one ethnicity listed, the most recent non-missing ethnicity was reported.
 Overall See General Notes

	Age NA	-	6	6	12,822	2,350	6,239	-	2.06	16

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age Age was calculated as follows: [(December 31, 2012- (Consumer Birth Date)) / 365.25]
 Overall See General Notes.
 Gender If multiple genders listed, the most recent non-missing gender was reported.

Table 6 State Notes:

Hospital Includes all individuals admitted to a State Regional Mental Health Center (forensic and non-forensic).
 Other Inpatient Includes clients admitted to one of the psychiatric inpatient hospitals within Nebraska, other than a State Regional Mental Health Center.
 Residential Adolescents included here were admitted to one of the adolescent psychiatric units at a state psychiatric hospital.
 Community Includes clients receiving outpatient services at a State Regional Mental Health Center or clients receiving services at a community provider.
 Overall For clients without a discharge date, length of stay was calculated using June 30, 2013 as a 'discharge date'. N/A means no clients fell into this category. Also See General Notes

State Notes:

None

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2012

STATE Nebraska

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$46,406,784	30%	\$9,259,257,316	23%
Other 24-Hour Care	\$45,583,700	29%	\$7,471,957,567	19%
Ambulatory/Community	\$62,278,827	40%	\$21,937,689,085	55%
Total	\$156,826,194	-	\$39,539,673,787	-

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2012 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-incdata.org/>

STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2012

STATE Nebraska

Funding Source	Ambulatory/Community			State Hospital		
	State Revenues	Percent Total (State)	Percent Total (US)	State Revenues	Percent Total (State)	Percent Total (US)
Medicaid	\$19,355,335	18.4%	59.1%	\$749,282	1.5%	23.0%
Community MH Block Grant	\$1,792,661	1.7%	1.4%	-	-	0.0%
Other SAMHSA	\$370,994	0.4%	0.4%	-	-	0.0%
other Federal(non-SAMHSA)	\$19,167	0.0%	2.3%	\$2,933,761	6.0%	4.0%
State	\$51,278,790	48.7%	28.7%	\$45,343,995	92.5%	68.1%
Other	\$32,425,328	30.8%	5.6%	-	-	3.9%
Total	\$105,242,275	100.0%	100.0%	\$49,027,038	100.0%	100.0%

Note:

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2012 reports - State Mental Health Agency Controlled Expenditures and Revenues, Table 24, 25, and 26.

This table does not show Revenues for state central office including Research, Training, and Administration expenses.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-incdata.org/>

Structure Domain: Mental Health Programs Funded By the Federal Mental Health Block Grant, FY 2013

Nebraska

Adult Programs = 6 Child Programs = 5 Total Programs = 6 Adult Total: \$906,756 Child Total: \$823,907 Total: \$1,730,663

Agency Name	Address	Area Served	Block Grant for Adults with SMI	Block Grant for Children with SED
Region 2 Behavioral Health Authority	110 North Bailey Street, North Platte, NE 69103	Southwest	\$194,364	\$0
Region 3 Behavioral Health Authority	4009 6th Avenue, Suite 65, Kearney, NE 68848	Southcentral	\$113,199	\$149,861

General Notes FY 2013

Nebraska

URS Table Number	General Notes
All	Currently, individuals included in this reporting are those that were served in a mental health or dual service within the fiscal year. To obtain unduplicated count of persons served, the Division used social security numbers and dates of birth to identify unique clients in the data system.
2A	Data for this table were extracted from Magellan 2013 October data extract and Avatar September data extract. The Magellan databases hold collections of Community Based Data for Nebraska. The Avatar databases represent consumers served in three state hospitals (Regional Center). Mental Health Consumer records are included in this population when they: 1) Have a service for a Mental Health Treatment Program or 2) Have a service for a Dual Treatment Program Consumers only being served for Substance Abuse or Mental Retardation/Developmental Disabilities are excluded from this population. The population use for table 2a is an unduplicated count of persons served in both regional center and community programs. The clients were identified by social security number and date of birth.
2B	This is the same population presented in Table 2A distributed by ethnicity.
3	Data in this table reflects a population which receives Mental Health Services in one of four settings throughout the reporting period. This table contains data which are duplicated across rows. Community Mental Health Programs includes clients receiving outpatient services at a State Regional Mental Health Center or clients receiving services at a community provider. State Psychiatric Hospitals include all individuals admitted to a State Regional Center (Adult Psych, Sex Offenders, and Forensic Psych). Other Psychiatric Inpatients include clients admitted to one of the psychiatric inpatient hospitals within Nebraska, other than State Psychiatric Hospitals. Residential Treatment Center for Children population consists of adolescents admitted to one of the units state-operated Regional Centers or had a living situation of "Child Residential Treatment"
4	This table is a representation of the non-institutionalized adult population first presented in Table 2a. Employment Status is based on most recent data at the end of the reporting period. If employment status was listed as unknown or was missing, employment status for the next recent update within the given timeframe was used. If no status was reported within that ± 30-day window, the most recent status within the 12 months preceding the end of the reporting period was used. If age was missing, the consumer was excluded from this table.
4A	This represents the same population as in Table 4. Primary diagnosis is based on the most recent diagnosis reported at admission.
5A	The population for Table 5a is the same population represented in Table 2a. The distribution of patients was defined as follows: Medicaid Only: persons listed as eligible and receiving payments, without another source of medical insurance. Non-Medicaid Only: persons listed as having a non-Medicaid source of insurance. Both Medicaid and Non-Medicaid: Persons listed as eligible and receiving payments from Medicaid, that have another source of medical insurance. The state mental health authority does not operate Medicaid in Nebraska; therefore the individuals represented in table 5a do not include all Medicaid Mental Health funded individuals.
5B	This is the same population as presented in Table 5a distributed by ethnicity.
6	This table represents the turnover of the clients shown in Table 2a
6	Total Served at Beginning of Year (unduplicated): This population includes clients with admission dates before July 1, 2012 and who were discharged after July 1, 2012, or were not discharged. Clients are unduplicated.
6	Admissions during the Year data (duplicated), the population was limited to records with admission date which occurred between July 1, 2012 and June 30, 2013. All unique admission dates were counted for each service type.
6	Length of Stay (in Days): discharged patients, the population were limited to those persons included in the previous column. Mean and median number of days was calculated by subtracting the admission date from the discharge date of each record.
6	For Clients in Facility for Less than 1 Year: Average Length of Stay (in Days): residents at end of year: the population was limited to persons who were admitted between July 1, 2012 and June 30, 2013, and did not have a discharge date. Length of stay was calculated as follows: (June 30, 2013-Admission Date).

URS Table Number	General Notes
6	For Clients in Facility More than 1 Year: Average Length of Stay (in Days): residents at end of year: the population was limited to persons who were admitted prior to July 1, 2012, and did not have a discharge date. Length of stay was calculated as follows: (June 30, 2013-Admission Date).
6	For Admissions During Year: Community Programs (age 0-17) (cell 23): the 2012 population served was reported in error as 11,173. The actual 2012 number is 1,173. This error created the appearance of a dramatic decrease of children served when comparing 2012 and 2013. When the correct 2012 number is used, there is an increase in children served between 2012 and 2013 (2012 correct number = 1,173 versus 2013 = 1,334).
6	For Admissions During Year: Community Programs (cell 22): the FY 2012 population served was reported in error as 27,946. The actual FY 2012 number is 17,946. The source of this error was in the age 0-17 category. This error created the appearance of a dramatic decrease of total persons served when comparing years 2012 and 2013.
6	There are zero observations for Other Psychiatric Inpatient - Children - In facility for more than 1 year.
6	Total Number of Consumers Served in Other Psychiatric Inpatient Settings: Nebraska DBH and providers executed a substantial data-cleaning effort in FY2013 where inactive cases were administratively discharged. While the count of 507 in FY 2013 is much lower compared to what was reported in FY 2012, when the administrative discharge criteria is applied to FY 2012 data, the 2012 counts equal 534, resulting in a 5% change between the two fiscal years.
6	For Average LOS of children (in facility < 1year) who were state hospital residents at the end of the year - the average LOS is based on a total of 3 consumers in FY2013, and 14 consumers in FY2012. Due to the small number of clients in this particular category, it is understandable for there to be a large variance in the average LOS.
8	In any given fiscal year, funds from more than one block grant may be used to fund administrative and other non-direct service costs due to the overlapping periods of awards. Fund usage is also affected by the availability of funds provided by the federal government to states. In FY12, funds from two block grants were used: FFY11 award (\$43,201) and FFY12 award (\$88,073), totaling \$131,374. In FY13, virtually the remainder of the FFY12 award (\$47,891) and a portion of the FFY13 award was spent (\$51,278), totaling \$99,169. This was significantly less because of the delay in the availability of block grant funding due to uncertainty of the federal budget.
9	DBH drew a stratified random sample of individuals who received services via the six Regional Behavioral Health Authorities from community mental health and/or dual providers for the second half of Calendar Year (July to December 2012). The sample drawn was used to conduct the annual consumer survey.
11	This is the same sample as presented in Table 9 distributed by the rest of 5 domains.
12	Percent of adults meeting Federal definition of SMI represents the total number of adults (18 and above) found in Table 14A (SMI population) divided by the total number of adults (18 and above) found in Table 2A (Total MH population served). See Table 14A notes for SMI definitions.
12	Percentage of children/adolescents meeting Federal definition of SED represents the total number of children/adolescent (3-18 years old) found in Table 14A (SED population) divided by the total number of children/adolescent (3-18 years old). See Table 14A notes for SED definitions.
12	Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem represents adults (18 years old and greater) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of adults in the population. A Person with a Substance Abuse Diagnosis is defined as someone who: (1) Has a DSM-IV Axis I number which complies with a Substance Abuse Diagnosis (291.1-292.99 and 303.0-305.99) or (2) Has a Service Authorization for a Substance Abuse Program.
12	Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem represents children/adolescents (less than 18 years of age) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of children/adolescents in the population.
12	Percentage of adults meeting Federal definition of SMI who also have a diagnosis of substance abuse problem represents adults (18 years old and greater) in the population who meet the Federal definition for SMI, who have a diagnosis Substance Abuse problem divided by the total number of adults with SMI in the population (Table 14A).

URS Table Number	General Notes
12	Percentage of children/adolescents meeting the Federal definition of SED who also have a diagnosis of substance abuse problem: represents children/adolescents (3-18 years of age) in the population who meet the Federal definition for SED and who have a diagnosed Substance Abuse problem, divided by the total number of children/adolescents with SED in the population (Table 14A).
12	With the requirement for the client level data reporting initiative, Nebraska calculated age as of the mid-point of the reporting period, whereas in the prior reporting period, age was calculated as of the beginning of the state FY. This may have caused the percent of children served by the SMHA with co-occurring MH/SA diagnosis to increase from FY2011.
14A	This table represents the distribution of the adult SMI and children/adolescent SED population. This population is a subset of the population presented in Table 2A.
14A	NE State SMI Definition: An Axis diagnosis codes between 295-298.9 AND GAF score= 1-59 OR SSI/SSDI eligible OR were admitted to a Community Mental Health Rehabilitation Based Services: Community Support, Assertive Community Treatment, Psychiatric Residential Rehabilitation, Day Treatment, Day Rehabilitation, Day Support, Vocational Support, or related psychiatric rehabilitation services.
14A	NE State SED Definition: Age 3-17 AND One of the following Axis diagnosis codes 314.00, 314.01, 314.9, 295.xx, 295.4, 295.7, 297.1, 297.3, 298.8, 298.9,296.0x, 296.4x, 296.5x, 296.6x, 296.7, 296.80, 296.89, 296.90, 301.13, 296.2x, 296.3x, 300.01, 300.21, 300.30, 307.1, 307.51, 309.81, 312.34, 307.23 AND SSI/SSDI eligible OR were admitted to one of the following programs: Professional Partner Services, Special Education Services, Day Treatment MH, Intensive OP – MH, Therapeutic Consultation/School Wrap, Respite Care – MH.
14B	This is the same population as presented in Table 14A distributed by ethnicity.
15A	This is the same population as presented in Table 14A distributed by ethnicity. The definitions for all four settings are the same as in Table 3.
15	Living Situations information is based upon Self-Report Data collected at admission and discharge. This table shows the living status at the end of the reporting period. If living status was listed as unknown or was missing, living status for the next recent update within the given timeframe was used. If no status was reported within that ± 30-day window, then report the most recent status within the 12 months preceding the end of the reporting period.
16	Adults with SMI served is the same adult population found in Table 14A. Children with SED are the same child/adolescent population found in Table 14a.
17	Total receiving Integrated Treatment for Co-occurring Disorders (MH/SA) represents individuals listed as receiving treatment in a dual-diagnosis program service use records. These numbers are lower than in the past due to changes in how this field is populated. In the past it has included those with dual-program services use, admission reason, and level of care.
17	Total receiving Medication Management represents individuals listed as receiving medication management services.
19B	Consumers age 3-17 using state funded behavioral health services are asked the question: "Has your child been attending school in the last 3 months?" at admission, annual re-registration, annual re-authorization, and discharge. Individuals who are admitted to one of the state psychiatric hospitals are not asked this question, and a code of N/A is assigned to those individuals. If a consumer did not have an admission or discharge date within T1 or T2, then they were included in the 'No Response' category. For Consumers in Service for at least 12 months: Individuals identified in Table 2A, who had a service date within the data system prior to 7/1/12, were included in this table. For Consumers who began using Mental Health services within the last 12 months: Individuals identified in Table 2A, who had a first admission in the data system within the current fiscal year (7/1/12-6/30/13). T2: Included those who had self-reported suspended within the current fiscal year (7/1/12-6/30/13) or did not report any suspends. T1: Included those who had self-reported suspended within the previous fiscal year (7/1/11-6/30/12) or did not report any suspends. If suspended at T1 (change): Individuals identified in T1 that had a self-reported suspend during the previous fiscal year, and had a self-reported suspend within the current fiscal year or did not have a self-reported suspend during the current fiscal year. If NOT suspended at T1 (change): Individuals identified in T1 that did not have a self-reported suspend during the previous fiscal year, and had an a self-reported suspend within the current fiscal year or did not have a self-reported suspend during the current fiscal year. NE started to collect school attendance information at discharge since JULY 2011.

URS Table Number	General Notes
20A	This table includes all persons discharged from a state psychiatric hospital between 7/1/12-6/30/13, that were not admitted to or discharge from a forensic unit. The total number of discharges includes individuals treated at the state psychiatric hospitals only for substance abuse disorders, as well as individuals treated for both substance abuse and mental health disorders and those treated for mental health disorders only. Transfers between different state psychiatric hospitals are not counted as discharges. A discharge is counted if the person has been discharged for more than one day without a readmission, and if the discharge status does not indicate a transfer. Readmissions are counted if they occurred greater than seven days after a discharge, and if the discharge status does not indicate a transfer.
20B	This table includes all persons discharged from a state psychiatric hospital between 7/1/12-6/30/13, that were admitted to or discharged from a forensic unit. Transfers between different state psychiatric hospitals are not counted as discharges. A discharge is counted if the person has been discharged for more then one day without a readmission, and if the discharge status does not indicate a transfer. Readmissions are counted if they occurred greater than one day after a discharge, and if the discharge status does not indicate a transfer.
21	This table includes all persons discharged from a state psychiatric hospital or a psychiatric inpatient hospital between 7/1/12-6/30/13, that were not admitted to or discharge from a forensic unit. The total number of discharges includes individuals treated only for substance abuse disorders, as well as individuals treated for both substance abuse and mental health disorders and those treated for mental health disorders only. Transfers are not counted as discharges. A discharge is counted if the person has been discharged for more than seven days without a readmission, and if the discharge status does not indicate a transfer. Readmissions are counted if they occurred greater than seven days after a discharge, and if the discharge status does not indicate a transfer.
