URS Table Number	General Notes
All	NH was not able to de-duplicate client counts again this year. Numbers for 2012 and 2013 will not be comparable to past years.
3	Counts this year and for year 2012 are not de-duplicated as in past years. Counts for Other Psychiatric Inpatient came directly from the facility and are duplicated in Community Mental Health Programs. There have been no changes to the Other Psychiatric Inpatient facility and larger numbers in 2012 and 2013 are likely due to not being able to de-duplicate. Counts for Residential Treatment Centers were not available in time this year and could not have been de-duplicated.
9, 11, 11a, 19A & 19B	These tables are answered through NH's consumers survey. The survey is a stratified random sample and resulting numbers are weighted. Totals occasionally do not add up due to the weighting and rounding issues.
