URS Table Number	General Notes
6	In 2013, the average LOS of Children Discharged from State Hospitals and the average LOS of children (in facility <1 year) who were state hospital residents at the end of the year 0. In 2012 these values were 99. The 2013 values (both 0) are due to the fact that in 2013 no children were discharged or in the SMHAs state hospitals.
8	The amount of Total MHBG Expenditures for Non-Direct Service Activities was \$161,354 in 2013, and \$9,700 in 2012. A decision was made to use resources for direct services in FY2012; however, that decision was based on available state resources in 2012, which were not accrued in State fiscal year 2013.
17	The 31% decrease in the total number of consumers receiving Illness Self Management service from 2012 is likely due to the vicissitudes of enrollment patterns and need.
