Ohio

URS Table Number	General Notes
4, 14 & 15	We are in the process of upgrading our client-level data collection and reporting system. The apparent increases over 2012 may be due to better data reporting or it may be due to problems with the CLD file that was used to report this table.
8, 10	Uses SFY 2013 MH BG expenditures; WebBGAS uses SFY 2012 MH BG expenditures because that is the most recent year for which Ohio MHAS has Board expenditures.
11	The 24% drop in percentage of adults reporting positively about outcomes from 2012 to 2013 appears to be an artifact of the sample drawn in 2013.
12	We did not provide the percentage of persons served for the reporting period who met the federal definitions of serious mental illness and serious emotional disturbance are due to the elevation of Medicaid claims processing from the local/county behavioral health authorities to the state Department of Medicaid, changes in file formats made the estimation of dual SA/MI diagnosis impossible.
15A	We have no way to calculate SMD/SED status for individuals covered by Medicaid who are hospitalized in community (private) hospitals.
