14 A & 14B	<p>State Definition of SED: Serious emotional disturbance defined. An individual with a serious emotional disturbance is an individual who: (1) Is under eighteen years of age; or is between 18-21 years of age having received services prior to the age of 18.(2) Exhibits behavior resulting in functional impairment which substantially interferes with, or limits the individual's role or functioning in the community, school, family, or peer group; (3) Has a mental disorder diagnosed under the Diagnostic and Statistical Manual of Mental Disorders, fourth edition revised, 1994; (4)Has demonstrated a need for one or more special care services, in addition to mental health; and (5)Has problems with a demonstrated or expected longevity of at least one year or has an impairment of short duration and high severity.</p>
17	<p>For several years, the Division of Behavioral Health reported Serenity Hills Program as evidence based practice. Serenity Hills was the only residential facility of it's kind, providing integrated mental health and substance abuse services. After review of the Serenity Hills program, it was determined they were not meeting fidelity to the evidence based practice. Therefore, the Division of Behavioral Health has removed them from our list of evidence based practices, as was previously reported to CMHS. However, as community mental health centers are improving the delivery of integrated treatment, individuals with co-occurring issues are able to receive services within their own community, rather than having to move to an unfamiliar service provider to receive the services they need/want. The Division is hopeful that this shift in philosophy and service delivery provides a more welcoming, respectful and hopeful atmosphere for individuals and families receiving services. As a result of removing this program as evidence based, the numbers served have dropped to zero.</p>
