None

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2012**

**STATE Tennessee**

	<b>Expenditures: State</b>	<b>Percent of Total Expenditures: State</b>	<b>Expenditures: U.S.</b>	<b>Percent of Total Expenditures: U.S.</b>
State Hospitals-Inpatient	\$141,300,000	25%	\$9,259,257,316	23%
Other 24-Hour Care	\$95,700,000	17%	\$7,471,957,567	19%
Ambulatory/Community	\$322,200,000	56%	\$21,937,689,085	55%
Total	\$571,600,000	-	\$39,539,673,787	-

**Note:**

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2012 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:  
<http://www.nri-incdata.org/>

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2012**

STATE Tennessee

Funding Source	Ambulatory/Community			State Hospital		
	State Revenues	Percent Total (State)	Percent Total (US)	State Revenues	Percent Total (State)	Percent Total (US)
Medicaid	\$347,500,000	83.2%	59.1%	\$17,900,000	12.7%	23.0%

Tennessee

URS Table Number	General Notes
2A, 3, 5A, 14A, 20B, 21	Neither TennCare nor Behavioral Health Safety Net (BHSN) collect Hispanic Origin separately. TennCare and state psychiatric hospitals include Native Hawaiians or Other Pacific Islanders in the Asian category. TennCare does not collect multi-race data. Some counts may be depressed due to the closure of a state psychiatric hospital in Tennessee, Lakeshore Mental Health Institute, at the end of the 2012 reporting period.
2, 3, 5, 5A, 6, 14A, 15A	Forensic data were not included in these tables. This is a change from 2012 reporting which included forensic data. Private psychiatric data for agencies that contracted with TDMHSAS in FY 2013 were added to these tables for the first time.
3, 6	Persons who receive non-inpatient care in state psychiatric hospitals were included in the Community Programs row. A person who is served in both community settings and inpatient settings was included in both rows. Persons who receive Medicaid funded inpatient services through a provider that is not licensed or contracted by the SMHA were not counted.
5A, 6	The decreases in the total number of consumers with both Medicaid and non-Medicaid funding, the total admissions to a state hospital during the year, average LOS of adult discharges from state hospitals, and the average LOS of adults (in facility <1 year) who were state hospital residents at the end of the year were due to the closure of a state psychiatric hospital in Tennessee, Lakeshore Mental Health Institute, at the end of the 2012 reporting period.
6	Increases in the total number of consumers served in other psychiatric inpatient settings at the beginning of the year and total number of admissions to other psychiatric inpatient settings during the year were due to inclusion of data from private psychiatric hospitals that contract with TDMHSAS and also a change in reporting methodology by TennCare.
6	Increases in total admissions to residential treatment centers and number of consumers served in residential treatment centers at the beginning of the year are due to a change in methodology in reporting by TennCare. The residential treatment claims are considered concurrent/continuous if the first date of service on the new claim is within three days of the last date of service on the previous claim.
12, 14A	TennCare employs an operational definition based on mental health diagnosis (290.xx-314.xx) and a 15-month claims history to categorize individuals as having serious mental illness (SMI). Substance use disorders (SUD) were based on the presence of a secondary diagnosis of substance use disorder (303.xx-305.xx) as with previous years.
12	The change in the percent of adults meeting the federal definition of SMI was due to an improvement in data quality and claims content completion.
14A	The increase in the total number of Asian consumers with SMI/SED and decrease in the total number of Native Hawaiian/other Pacific Islander consumers with SMI/SED can be attributed to the small numbers in these populations.
16, 17	Increases in total number of consumers receiving Supported Employment, Family Functional Therapy, Illness Self-Management, Medication Management, total number of adults with SMI/children with SED, and decreases in consumers receiving ACT, Family Psychoeducation, and Integrated Treatment for Dual Diagnosis are due to a change in how the data were collected for 2013.
