URS Table Number	General Notes
3	Counts are based on a client file that includes all CMH clients, State Hospital clients, and involuntary inpatient clients for FY2013. A small number of individuals may be counted more than once due to movement among community programs or movement between hospitals and community.
6	The Vermont State Hospital had an emergency closure in August 2011. Vermont opened a new State Hospital facility in January 2013, with 8 beds, which is a reduction from the 54 beds at the former VSH. Vermont is currently using other designated hospitals for patient care which explains increases in consumers in other psychiatric settings. The reduction in beds (54 to 8) and a partial years' worth of data (six months) for our new facility results in smaller numbers and LOS for State Hospital clients.
19A	Based on PPE of the overlap between mental health services databases and a statewide arrest database provided by the VT Dept. of Public Safety (for adults) and VT Dept. of Children and Family's child custody database (for children). Adult arrest data from the Dept. of Public Safety was not available for FY13.
20A/B	Vermont currently has an eight bed State Hospital facility operating at 100% capacity. Discharges from the State Hospital that are readmitted would likely go to a designated hospital in our decentralized system of care.
