URS Table Number	General Notes
6	FY 2012 there was only 1 client that was under 18 in the State hospital and was discharged during that year. No new children were admitted in FY13
6	The average length of Stay for discharged clients was lower because more individuals had shorter stays in the State Hospital than last year. While those clients that had long stays continued to reside at the State Hospital
10	Wyoming does not gather their grant totals by diagnosis, therefore no dollars are entered in this section.
16 & 17	No data is reported. WY does not gather data in this format
20b	The total numbers of readmissions to the state hospital are small and any changes from one year to the next cause large percentage changes.
