Note:

Are Client Counts Unduplicated?

Duplicated across Community, RPTC, and Hospital/Other Inpatient. See General Notes. **Number of States with Unduplicated Counts**

43

Duplicated between Hospitals and Community

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2013

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Assigned age as of middle of the reporting period; for SFY 2014: Age as of December 31, 2013. Clients with Age = Not Available Age

are adult clients (age subgroup not available) who received Illness Self Management (ISM) services in Community-based setting.

Gender None

See General Notes. Race

Overall See General Notes. Client counts include individuals who received Illness Self Management (ISM) services in Community-based

setting. FY14 ISM count = 4212 (4189 SMI and 23 SED). Clients with Age = Not Available are Adult ISM Clients.

Table 2b

Assigned age as of middle of the reporting period; for SFY 2014: Age as of December 31, 2013. Clients with Age = Not Available Age

are adult clients (age subgroup not available) who received Illness Self Management (ISM) services in Community-based setting.

Gender None

Race See General Notes.

Overall See General Notes. Client counts include individuals who received Illness Self Management (ISM) services in Community-based

setting. FY14 ISM count = 4212 (4189 SMI and 23 SED). Clients with Age = Not Available are Adult ISM Clients.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age Assigned age as of middle of the reporting period; for SFY 2014: Age as of December 31, 2013. Clients with Age = Not Available are adult clients (age subgroup not available) who received

Illness Self Management (ISM) services in Community-based setting.

Overall See General Notes. Client counts include individuals who received Illness Self Management (ISM) services in Community-based setting. FY14 ISM count = 4212 (4189 SMI and 23 SED). Clients

with Age = Not Available are Adult ISM Clients.

Gender None

Table 6 State Notes:

Hospital Used age at Admission. See General Notes.
Other Inpatient Used age at Admission. See General Notes.
Residential Used age at Admission. See General Notes.

Community Total Served at Year Begin: Assigned age as of middle of the reporting period; for SFY 2014: Age as of December 31, 2013. Admissions During Year: Used age at Admission. Admissions =

new program enrollments. See General Notes.

Overall See General Notes.

Note: This table use data from URS/DIG Table 8.

State Notes:

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2013

STATE Alaska

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$31,648,600	13%	\$8,891,294,399	23%
Other 24-Hour Care	\$86,638,800	36%	\$7,208,595,272	19%
Ambulatory/Community	\$117,982,800	49%	\$21,188,869,172	56%
Total	\$242,551,700	-	\$38,098,637,217	-

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2013 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website: http://www.nri-incdata.org/

STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2013

STATE Alaska

Funding Course		Ambulatory/Commur	nity		State Hospital	
Funding Source	State Revenues	Percent Total (State)	Percent Total (US)	State Revenues	Percent Total (State)	Percent Total (US)
Medicaid	\$159,744,800	78.1%	59.2%	\$17,614,400	55.7%	22.2%
Community MH Block Grant	\$630,388	0.3%	1.3%	-	-	-
Other SAMHSA	\$268,012	0.1%	0.3%	-	-	-
other Federal(non-SAMHSA)	-	-	2.5%	\$4,181,400	13.2%	4.2%
State	\$43,978,400	21.5%	28.2%	\$7,874,900	24.9%	68.0%
Other	-	-	5.6%	\$1,977,900	6.2%	4.5%
Total	\$204,621,600	100.0%	100.0%	\$31,648,600	100.0%	100.0%

Note:

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2013 reports - State Mental Health Agency Controlled Expenditures and Revenus, Table 24, 25, and 26.

This table does not show Revenues for state central office including Research, Training, and Administration expenses.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website: http://www.nri-incdata.org/

Structure Domain: Mental Health Programs Funded By the Federal Mental Health Block Grant, FY 2014

Alaska

Total Programs = 5 Adult

Adult Total: \$691,523

Agency Name	Address	Area Served	Block Grant for Adults with SMI	Block Grant for Children with SED
Gastineau Human Services	5597 Alsek Street, Juneau, AK 99801	Southeast	\$115,979	\$0
Polaris House	434 Willoughby Avenue, Juneau, AK 99801	Southeast	\$179,505	\$0
Frontier Community Services	43335 K-Beach Road, Ste 36, Soldotna, AK 99669	Southcentral	\$118,871	\$0
Anchorage Community Mental health Services, Inc.	4020 Folker Street, Anchorage, AK 99508	Southcentral	\$18,850	\$0
Juneau Alliance for Mental Health	346 Glacier Hwy, Ste A, Juneau, AK 99801	Southeast	\$258,318	\$0

Total: \$691,523

General Notes FY 2014

Alaska

URS Table Number	General Notes
All	Reporting year is State Fiscal Year (SFY 2014).
All	Data Sources and Limitations: Community Programs: The Division uses an electronic health records system (the Alaska Automated Information Management System (AKAIMS)) to collect and report Community Program data. However, AKAIMS does not include information on youth or adults who receive illness self-management (ISM) services. Starting in FY12, the number of individuals who received ISM services (based on grantee quarterly reports) was added to the AKAIMS counts for the total number individuals who received services. Due to this change in methodology, caution should be exercised when making comparisons with prior year data. The Division has improved data collection and reporting of demographic information for clients receiving ISM services; however, many of these clients are still included in the "Not Available" category for age, gender, race, ethnicity, employment status, and living situation. The unduplicated counts of "clients served" reflect the number of clients who received services through program enrollment. These counts do not include clients who received a mental health service but were not enrolled in a program. Counts are unduplicated at the agency level and also across agencies if a referral was used and both agencies used the same AKAIMS client id. If two different agencies serve a client, and each agency uses a different AKAIMS id, then the client will be counted twice. For each of the three agencies providing ISM services, there may be some duplication in the reported counts of individuals served.
All	State Psych Hospital: Data source is the Alaska Psychiatric Institute (API) electronic health records system: Meditech.
All	Other Psych Inpatient: This includes Designated Evaluation & Treatment (DET) and Acute Psych: DET: High Risk Inpatient Psychiatric Diversion from API. Data is collected and reported using an Access database. FY14 data is not yet available; FY14 URS Tables include the FY13 DET data for clients that had an inpatient stay at a DET facility. Acute Psych: Data is from the New MMIS-Cognos Decision Support System (Medicaid claims data). It includes in- and out-of-state clients. The FY14 unduplicated client count is based on Medicaid claims that have a valid Division of Behavioral Health collocation code; to be counted, a client must have had at least one Medicaid paid claim.
All	RPTC: Data is from the New MMIS-Cognos Decision Support System (Medicaid claims data). It includes in- and out-of-state clients. The FY14 unduplicated client count is based on Medicaid claims that have a valid Division of Behavioral Health collocation code; to be counted, a client must have had at least one Medicaid paid claim.
All	Age - Unduplicated Counts: For Community Program unduplicated client counts, age is assigned as of the middle of the reporting period (SFY 2014 = Age as of December 31, 2013). For API, Other Psych Inpatient, and RPTC unduplicated client counts (except those in Table 6), age is assigned as of the middle of the reporting period; Table 6 unduplicated counts have age (child vs adult) assigned as of the date of admission. Age - Duplicated Counts: For all duplicated client counts, age is assigned as of the date of admission.
All	Race/Ethnicity: For Community Programs, Acute Psych, and RPTCs, 'Hispanic' data is collected separately from 'Race' data (i.e., two separate questions); for API, 'Hispanic' was collected as part of the 'Race' question; and for DET, neither 'Race' nor 'Hispanic' data was collected. For consistency in reporting in the URS Tables, the API counts of 'Hispanic' (as a 'Race') were instead entered as being a 'Hispanic' response to the Ethnicity question and were assigned 'Race Not Available'; the balance were assigned an Ethnicity of 'Hispanic Origin Not Available'.
2A/2B	For age: Assigned age as of middle of the reporting period; for SFY 2014: Age as of December 31, 2013. Clients with Age = Not Available are adult clients (age subgroup not available) who received Illness Self-Management (ISM) services in Community-based setting. For overall: Client counts include individuals who received ISM services in Community-based setting. FY14 ISM count = 4212 (4189 SMI and 23 SED). Clients with Age = Not Available are adult ISM Clients.
2A/14A	In FY14, the Division improved data collection and reporting of demographic information for clients receiving Illness Self-Management (ISM) services – this resulted in fewer clients being reported under "Not Available" category for age, gender, & race and an increase in the number of clients in the known demographic categories (e.g., multi-racial). In addition, FY14 was a transition year for changing the data source for Acute Psych and RPTC settings from STARS to the new MMIS-Cognos Decision Support System. Multi-racial data was not available in STARS; however, it is available in the Cognos Decision Support System. These two factors contribute to the increased number of multi-racial clients reported in FY14.

URS Table Number	General Notes
4	Employment Status: Starting in FY14, the methodology for reporting the most recent employment status changed from using the AKAIMS Admission/Discharge data to the Client Status Review (CSR) data. The CSR is administered at admission, periodically during treatment (every 90-135 days), and at discharge. For FY14, we reported employment status based on the most recent CSR in the reporting period, thus providing a more recent status than at admission for clients who have not yet been discharged. The differences between FY14 and prior year employment status largely reflect this change in methodology.
5A/5B	Funding Support - Medicaid Status: For consistency in reporting across service settings, the categories reflect 'Primary Expected Payment Source' = Medicaid or Non-Medicaid. We are not able to identify clients with Medicaid Only, Non-Medicaid Only, or both Medicaid and Non-Medicaid. For most clients, we are able to determine if their primary expected payment source is Medicaid or Non-Medicaid. In the labeled "Medicaid Only," we are reporting the number of clients with "Primary Expected Payment Source = Medicaid," and in the labeled "Non-Medicaid Only," we are reporting the number of clients with "Primary Expected Payment Source = Non-Medicaid". We used the following methodology for each service setting: For Community Programs: In AKAIMS, the primary expected payment source is collected. If the client's primary expected payment source is Medicaid, and then the client is counted under "Medicaid only," if the client's primary expected payment source is not Medicaid, then the client is counted under "Non-Medicaid only". Starting in FY13, the clients receiving ISM services are counted under "Non-Medicaid only" because clients are not expected to pay for these services (note: in FY12, clients receiving ISM services were counted under "Medicaid Status Unknown)". For State Psych Hospital (API): the primary and secondary insurance types are collected. If the client's primary insurance type is Medicaid, then the client is counted under "Medicaid only" (this includes clients who have Medicaid as a secondary insurance type). For RPTCs and Acute Psych: Data is from the New MMIS-Cognos Decision Support System (Medicaid, so all clients are counted under "Medicaid only." For DET: Medicaid status is not collected, so all clients are counted under "Medicaid Status Not Available.
6	State Hospital: In FY14, API closed their children's unit on a short term basis, which is reflected in the decreased number of youth admissions and discharges. Also, in general, API has relatively few patients with long lengths of stay (LOS), and depending on when these patients are discharged, the average and median LOS may vary considerably from year to year. RPTC: In FY14, two RPTC facilities closed, which is reflected in the decreased number of youth admissions and discharges. Also, in general, relatively few adults receive treatment at RPTCs; consequently the average and median length of stay for adults may vary considerably from year to year.
12	Percentage of Persons Served who have a Dual Diagnosis (Co-Occurring Mental Health and Substance Abuse): We are not yet able to report the count or percentage of clients who have a dual diagnosis. We are able to report counts and percentages of clients who are "Treated for Co-Occurring Disorders". These counts are based on the client's admission record program type assignment of "Treating here for Both Mental Health & Substance Abuse". Percentages are based on Community Program data only.
15	Living Situations: Starting in FY14, for Community Programs, the methodology for reporting the most recent living situation changed from using the AKAIMS Admission/Discharge data to the Client Status Review (CSR) data. The CSR is administered at admission, periodically during treatment (every 90-135 days), and at discharge. For FY14, we reported living situation based on the most recent CSR in the reporting period, thus providing a more recent status than at admission for clients who have not yet been discharged. The differences between FY14 and prior year living situation largely reflect this change in methodology.
16	EBP data is reported for Community Programs only. The Division is working to improve data collection and reporting capability relative to clients receiving EBP services. Until we are better able to report demographic information for clients receiving EBP services, the client counts in Table 16 are included in the "Not Available" category for age, gender, race, and ethnicity. For Supported Housing: The FY14 decrease in the reported number of SMI adults receiving supported housing reflects a change in reporting methodology. Prior to FY14, the reported number of SMI adults receiving supported housing included individuals who were not receiving services under the auspices of the state mental health agency. Starting in FY14 reporting, the count of SMI receiving supported housing is limited to those who received services under the auspices of the state mental health agency. For Supported Employment: the FY14 decrease in the reported number of SMI adults receiving supported employment is believed to reflect improved data collection and reporting capability (e.g., limited duplicate counting). Therapeutic Foster Care: The FY14 decrease in the reported number of SED youth receiving therapeutic foster care reflects a change in reporting methodology to align more closely with the EBP definition of therapeutic foster care services. Multi-Systemic Therapy: The FY14 decrease in the reported number of SED youth receiving multi-systemic therapy reflects a shift of focus to other EBPs. The agency that had been providing the MST services has shifted to Parenting with Love & Limits and the Transition to Independence Process as their primary models of services to youth and family.

URS Table Number	General Notes
17	EBP data is reported for Community Programs only. The Division is working to improve data collection and reporting capability relative to clients receiving EBP services. Until we are better able to report demographic information for clients receiving EBP services, the client counts in Table 17 are included in the "Not Available" category for age, gender, race, and ethnicity.
