URS Table Number	General Notes
4, 5a, 6, 14a, 15, 16 & 17	For the overall increases from 2013 to 2014, we believe this is because of the completeness of the data. In prior years, our data was only about 80% complete at the time of reporting. Also, one of our major providers has done a data update this past year that changed a good number of clients race from "unknown" to a known race category.
11	Sample size/response rate: for adult and child family surveys, the number of surveys attempted, the number of contacts made and response rate are not available
19A/19B	Total number of persons surveyed or for whom criminal justice data are reported: the number of people from which the sample was drawn, sample size, number of contact were made, response rate are not available.
