URS Table Number	General Notes
5A	We are no longer requiring managing entities to submit Medicaid only clients. Mixed funding clients are considered non-Medicaid, since we do not collect Medicaid info we can't differentiate.
6, 14A, 15	All the large one year changes in reported data between 2013 and 2014 are due to decrease in the number of clients served in Community Health settings this year.
11	Adult Consumer Surveys/Child/Family Consumer Surveys sample size are not available.
12	The increase in the percent of adults meeting Federal definition of SMI, percent of children served by the SMHA with co-occurring MH/SA diagnoses and decrease in the percent of children/adolescents meeting Federal definition of SED are due to a shift from children's services to adult services this year, and we improved our ability to identify co-occurring clients.
