Maryland

URS Table Number	General Notes
4	The increase in consumers employed reflects our continued efforts to provide supported employment services. Maryland is recognized as a leading state in supported employment initiatives.
5A	The decrease in total number of consumers with both Medicaid and Non-Medicaid Funding since FY13 is because more individuals were covered solely by Medicaid. 15% increase in those covered by MA. ACA and PAC Conversion greater number MA eligible as shown by decrease (17%) in Uninsured as well.
6	Admissions to community programs have decreased from the year prior, but the total served remains the same. Admissions were limited due to the increased number remaining at the end of the year. Inpatient admissions have increased due to the implementation of the ACA. Individuals receiving the PAC waiver were converted to full Medicaid benefits on January 1, 2014. Inpatient service reimbursement became available for a greater number of individuals.
