

Nebraska 2014 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	7,296,842	12.09	22.78	59
Community Utilization per 1,000 population	7,148,971	11.03	22.33	58
State Hospital Utilization per 1,000 population	144,695	0.25	0.45	53
Other Psychiatric Inpatient Utilization per 1,000 population	349,528	1.57	1.32	39

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	617,174	59.2%	39.0%	57
Employed (percent with Employment Data)**	617,174	33.1%	17.9%	57

Adult Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	70.4%	71.3%	51

Child/Family Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	61.1%	67.3%	48

Readmission Rates:(Civil "non-Forensic" clients)	U.S.	State	U.S. Rate	States
State Hospital Readmissions: 30 Days	8,203	4.0%	8.2%	51
State Hospital Readmissions: 180 Days	18,762	8.9%	18.8%	53
State Hospital Readmissions: 30 Days: Adults	7,648	4.0%	8.4%	50
State Hospital Readmissions: 180 Days: Adults	17,385	8.9%	19.1%	52
State Hospital Readmissions: 30 Days: Children	498	0.0%	6.3%	17
State Hospital Readmissions: 180 Days: Children	1,286	0.0%	16.3%	22

Living Situation	U.S.	State	U.S. Rate	States
Private Residence	4,292,455	73.8%	78.8%	58
Homeless/Shelter	176,675	6.2%	3.2%	55
Jail/Correctional Facility	86,078	2.1%	1.6%	54

Adult EBP Services	U.S.	State	U.S. Rate	States
Supported Housing	81,422	5.3%	2.9%	36
Supported Employment	61,511	6.1%	2.0%	41
Assertive Community Treatment	61,445	1.8%	2.0%	38
Family Psychoeducation	23,228	-	1.4%	16
Dual Diagnosis Treatment	205,709	2.8%	10.9%	25
Illness Self Management	242,621	-	15.8%	20
Medications Management	369,008	44.4%	24.5%	19

Child/Adolescent EBP Services	U.S.	State	U.S. Rate	States
Therapeutic Foster Care	8,859	-	1.1%	24
Multisystemic Therapy	17,988	1.5%	2.6%	16
Functional Family Therapy	20,996	-	3.7%	13

Change in Social Connectedness	State	U.S. Rate	States
Adult Improved Social Connectedness	69.1%	72.8%	51
Child/Family Improved Social Connectedness	85.5%	83.9%	46

*Denominator is the sum of consumers employed and unemployed.

**Denominator is the sum of consumers employed, unemployed, and not in labor force.

Note:

Are Client Counts Unduplicated? Unduplicated **Number of States with Unduplicated Counts** 43

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2013

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age Age was calculated as follows: [(December 31, 2013– (Consumer Birth Date)) / 365.25]
Gender If multiple genders listed, the most recent non-missing gender was reported.
Race If more than one race/ethnicity listed, the most recent non-missing race/ethnicity was reported. For race listed as "Other", reported in "Unknown".
Overall See General Notes.

Table 2b

Age Age was calculated as follows: [(December 31, 2013– (Consumer Birth Date)) / 365.25]
Gender If multiple genders listed, the most recent non-missing gender was reported.
Race If more than one ethnicity listed, the most recent non-missing ethnicity was reported.
Overall See General Notes.

	Age NA	-	3	3	10,045	2,816	5,075	-	1.98	15

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age Age was calculated as follows: [(December 31, 2013– (Consumer Birth Date)) / 365.25]
 Overall See General Notes.
 Gender If multiple genders listed, the most recent non-missing gender was reported.

Table 6 State Notes:

Hospital Includes all individuals admitted to a State Regional Mental Health Center (forensic and non-forensic).
 Other Inpatient Includes clients admitted to one of the psychiatric inpatient hospitals within Nebraska, other than a State Regional Mental Health Centers.
 Residential Adolescents included here were admitted to one of the adolescent psychiatric units at a state psychiatric hospital.
 Community Includes clients receiving outpatient services at a State Regional Mental Health Center or clients receiving services at a community provider.
 Overall For clients without a discharge date, length of stay was calculated using June 30, 2014 as a 'discharge date'. N/A means no clients fell into this category. Also see General Notes.

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2013 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-incdata.org/>

STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2013

STATE Nebraska

Funding Source	Ambulatory/Community			State Hospital		
	State Revenues	Percent Total (State)	Percent Total (US)	State Revenues	Percent Total (State)	Percent Total (US)
Medicaid	\$23,466,316	20.1%	59.2%	\$482,670	1.0%	22.2%
Community MH Block Grant	\$1,730,663	1.5%	1.3%	-	-	-
Other SAMHSA	\$339,273	0.3%	0.3%	-	-	-
other Federal(non-SAMHSA)	-	-	2.5%	\$3,869,044	8.1%	4.2%
State	\$53,989,543	46.3%	28.2%	\$43,657,451	90.9%	68.0%
Other	\$37,037,672	31.8%	5.6%	-	-	4.5%
Total	\$116,563,467	100.0%	100.0%	\$48,009,165	100.0%	100.0%

Note:

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2013 reports - State Mental Health Agency Controlled Expenditures and Revenues, Table 24, 25, and 26.

This table does not show Revenues for state central office including Research, Training, and Administration expenses.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:

General Notes FY 2014

Nebraska

URS Table Number	General Notes
All	Currently, individuals included in this reporting are those that were served in a mental health or dual service within the fiscal year. To obtain unduplicated count of persons served, the Division used social security numbers and dates of birth to identify unique clients in the data system.
2A	Data for this table were extracted from Magellan 2013 October data extract and Avatar September data extract. The Magellan databases hold collections of Community Based Data for Nebraska. The Avatar databases represent consumers served in three state hospitals (Regional Center). Mental Health Consumer records are included in this population when they: 1) have a service for a Mental Health Treatment Program or 2) have a service for a Dual Treatment Program. Consumers only being served for Substance Abuse or Mental Retardation/Developmental Disabilities are excluded from this population. The population used for table 2a is an unduplicated count of persons served in both regional center and community programs. The clients were identified by social security number and date of birth.
2B	This is the same population presented in Table 2a distributed by ethnicity.
3	Programs include clients receiving outpatient services at a State Regional Mental Health Center or clients receiving services at a community provider. State Psychiatric Hospitals include all individuals admitted to a State Regional Center (Adult Psych, Sex Offenders, and Forensic Psych). Other Psychiatric Inpatients include clients admitted to one of the psychiatric inpatient hospitals within Nebraska, other than State Psychiatric Hospitals. Residential Treatment Center for Children population consists of adolescents admitted to one of the units state-operated Regional Centers or had a living situation of "Child Residential Treatment"
4	This table is a representation of the non-institutionalized adult population first presented in Table 2a. Employment Status is based on most recent data at the end of the reporting period. If employment status was listed as unknown or was missing, employment status for the next recent update within the given timeframe was used. If no status was reported within that \pm 30-day window, the most recent status within the 12 months preceding the end of the reporting period was used. If age was missing, the consumer was excluded from this table.
4A	This represents the same population as in Table 4. Primary diagnosis is based on the most recent diagnosis reported at admission.
5A	The population for Table 5a is the same population represented in Table 2a. The distribution of patients was defined as follows: Medicaid Only: persons listed as eligible and receiving payments, without another source of medical insurance. Non-Medicaid Only: persons listed as having a non-Medicaid source of insurance. Both Medicaid and Non-Medicaid: Persons listed as eligible and receiving payments from Medicaid, that have another source of medical insurance. The state mental health authority does not operate Medicaid in Nebraska; therefore the individuals represented in table 5a do not include all Medicaid Mental Health funded individuals.
5B	This is the same population as presented in Table 5a distributed by ethnicity.
6	This table represents the turnover of the clients shown in Table 2a.
6	Total Served at Beginning of Year (unduplicated): This population includes clients with admission dates before July 1, 2013 and who were discharged after July 1, 2013, or were not discharged. Clients are unduplicated.
6	Admissions During the Year (duplicated): the population was limited to records with admission date which occurred between July 1, 2013 and June 30, 2014. All unique admission dates were counted for each service type.
6	Discharges During the year (duplicated): the population was limited to records with discharge date which occurred between July 1, 2012 and June 30, 2014. All unique discharge dates were counted for each service type.
6	Length of Stay (in Days): Discharged Patients, the population was limited to those persons included in the previous column. Mean and Median number of days was calculated by subtracting the Admission date from the Discharge date of each record.
6	For Clients in Facility for Less than 1 Year: Average Length of Stay (in Days): Residents at end of year: the population was limited to persons who were admitted between July 1, 2013 and June 30, 2014, and did not have a discharge date. Length of stay was calculated as follows: (June 30, 2014-Admission Date).

URS Table Number	General Notes
6	For Clients in Facility More than 1 Year: Average Length of Stay (in Days): Residents at end of year: the population was limited to persons who were admitted prior to July 1, 2013, and did not have a discharge date. Length of stay was calculated as follows: (June 30, 2014-Admission Date).
6	There are zero observations for Other Psychiatric Inpatient - Children - In facility for more than 1 year.
6	Average LOS of children (in facility < 1 year) who were state hospital residents at the end of the year: the FY13 average LOS was based on a total of 3 consumers and in FY14 there were 0 clients in this age group thus resulting in a large change in average LOS between the two years. Due to the small number of clients in this particular category, it is understandable for there to be a large variance in the average LOS.
9SC	DBH drew a stratified random sample of individuals who received services via the six Regional Behavioral Health Authorities from community mental health and/or dual providers for the second half of Calendar Year (July to December 2013). The sample drawn was used to conduct the annual consumer survey.
11	This is the same sample as presented in Table 9 distributed by the rest of 5 domains.
12	Percent of adults meeting Federal definition of SMI represents the total number of adults (18 and above) found in Table 14A (SMI population) divided by the total number of adults (18 and above) found in Table 2A (Total MH population served). See Table 14A notes for SMI definitions.
12	Percentage of children/adolescents meeting Federal definition of SED represents the total number of children/adolescent (3-18 years old) found in Table 14A (SED population) divided by the total number of children/adolescent (3-18 years old). See Table 14A notes for SED definitions.
12	Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem represents adults (18 years old and greater) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of adults in the population. A Person with a Substance Abuse Diagnosis is defined as someone who: (1) Has a DSM-IV Axis I number which complies with a Substance Abuse Diagnosis (291.1-292.99 and 303.0-305.99) or (2) Has a Service Authorization for a Substance Abuse Program.
12	Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem represents children/adolescents (less than 18 years of age) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of children/adolescents in the population.
12	Percentage of adults meeting Federal definition of SMI who also have a diagnosis of substance abuse problem represents adults (18 years old and greater) in the population who meet the Federal definition for SMI, who have a diagnosis Substance Abuse problem divided by the total number of adults with SMI in the population (Table 14A).
12	Percentage of children/adolescents meeting the Federal definition of SED who also have a diagnosis of substance abuse problem: represents children/adolescents (3-18 years of age) in the population who meet the Federal definition for SED and who have a diagnosed Substance Abuse problem, divided by the total number of children/adolescents with SED in the population (Table 14A).
12	With the requirement for the client level data reporting initiative, Nebraska calculated age as of the mid-point of the reporting period, whereas in the prior reporting period, age was calculated as of the beginning of the state FY.
14A	This table represents the distribution of the adult SMI and children/adolescent SED population. This population is a subset of the population presented in Table 2A.
14A	NE State SMI Definition: An Axis diagnosis codes between 295-298.9 AND GAF score= 1-59 OR SSI/SSDI eligible OR were admitted to a Community Mental Health Rehabilitation Based Services: Community Support, Assertive Community Treatment, Psychiatric Residential Rehabilitation, Day Treatment, Day Rehabilitation, Day Support, Vocational Support, or related psychiatric rehabilitation services.
14A	NE State SED Definition: Age 3-17 AND One of the following Axis diagnosis codes 314.00, 314.01, 314.9, 295.xx, 295.4, 295.7, 297.1, 297.3, 298.8, 298.9,296.0x, 296.4x, 296.5x, 296.6x, 296.7, 296.80, 296.89, 296.90, 301.13, 296.2x, 296.3x, 300.01, 300.21, 300.30, 307.1, 307.51, 309.81, 312.34, 307.23 AND SSI/SSDI eligible OR were admitted to one of the following programs: Professional Partner Services, Special Education Services, Day Treatment MH, Intensive OP – MH, Therapeutic Consultation/School Wrap, Respite Care – MH.
14B	This is the same population as presented in Table 14A distributed by ethnicity.
15A	This is the same population as presented in Table 14A distributed by service setting. The definitions for all four settings are the same as in Table 3.

URS Table Number	General Notes
15	Living Situation information is based upon Self-Report Data collected at admission and discharge. This table shows the living status at the end of the reporting period. If living status was listed as unknown or was missing, living status for the next recent update within the given timeframe was used. If no status was reported within that \pm 30-day window, then report the most recent status within the 12 months preceding the end of the reporting period.
16	Adults with SMI served is the same adult population found in Table 14A. Children with SED are the same child/adolescent population found in Table 14a.
16	The number of consumers reported for Supported Employment increased substantially from FY13 to FY14. While some of this increase is likely attributed to system work to bring awareness to the program, the large portion seems to reflect providers not discharging consumers from the Supported Employment program. Work is being done to help ensure discharges are appropriately occurring to more accurately reflect those truly receiving Supported Employment services from the programs and that long term support through Supported Employment meets timeframe expectations.
17	Receiving Integrated Treatment for Co-occurring Disorders (MH/SA) represents individuals listed as receiving treatment in a dual-diagnosis program service use records. Note: these numbers are lower than in the past due to changes in how this field is populated. In the past it has included those with dual-program services use, admission reason, and level of care. Receiving Medication Management represents individuals listed as receiving medication management services.
19A	If a consumer did not have an admission or discharge date within T1 or T2, they were included in the 'No Response' category. For consumers in service for at least 12 months: individuals identified in Table 2A, who had a service date within the data system prior to 7/1/13, were included in this table. For consumers who began using mental health services within the last 12 months; individuals identified in Table 2A, who had a first admission in the data system within the current fiscal year (7/1/13-6/30/14). T2: Included those who had self-reported at least one arrest or criminal justice system encounter within the current fiscal year (7/1/13-6/30/14) or did not report any arrests. T1: Included those who had self-reported at least one arrest or criminal justice system encounter within the previous fiscal year (7/1/12-6/30/13) or did not report any arrests. If Arrested at T1 (change): Individuals identified in T1 that had a self-reported arrest during the previous fiscal year, and had a self-reported arrest within the current fiscal year or did not have a self-reported arrest during the current fiscal year. If not arrested at T1 (change): individuals identified in T1 that did not have a self-reported arrest during the previous fiscal year, and had an self-reported arrest within the current fiscal year or did not have an a self-reported arrest during the current fiscal year. Individuals missing birth date were included in the adult population.
19B	Consumers age 3-17 using state funded behavioral health services are asked the question: "Has your child been attending school in the last 3 months?" at admission, annual re-registration, annual re-authorization, and discharge. Individuals who are admitted to one of the state psychiatric hospitals are not asked this question, and a code of N/A is assigned to those individuals. If a consumer did not have an admission or discharge date within T1 or T2, then they were included in the 'No Response' category For Consumers in Service for at least 12 months: Individuals identified in Table 2A, who had a service date within the data system prior to 7/1/13, were included in this table. For consumers who began using mental health services within the last 12 months: individuals identified in Table 2A, who had a first admission in the data system within the current fiscal year (7/1/13-6/30/14).T2 included those who had self-reported suspended within the current fiscal year (7/1/13-6/30/14) or did not report any suspensions. T1 included those who had self-reported suspended within the previous fiscal year (7/1/12-6/30/13) or did not report any suspends. If suspended at T1 (change): individuals identified in T1 that had a self-reported suspend during the previous fiscal year, and had a self-reported suspend within the current fiscal year or did not have a self-reported suspend during the current fiscal year. If not suspended at T1 (change): individuals identified in T1 that did not have a self-reported suspend during the previous fiscal year, and had a self-reported suspend within the current fiscal year or did not have an a self-reported suspend during the current fiscal year. NE started to collect school attendance information at discharge since July 2011.
20A	This table includes all persons discharged from a state psychiatric hospital between 7/1/13-6/30/14 that were not admitted to or discharge from a forensic unit. The total number of discharges includes individuals treated at the state psychiatric hospitals only for substance abuse disorders, as well as individuals treated for both substance abuse and mental health disorders and those treated for mental health disorders only. Transfers between different state psychiatric hospitals are not counted as discharges. A discharge is counted if the person has been discharged for more than one day without a readmission, and if the discharge status does not indicate a transfer. Readmissions are counted if they occurred greater than seven days after a discharge, and if the discharge status does not indicate a transfer.

URS Table Number	General Notes
20B	This table includes all persons discharged from a state psychiatric hospital or a psychiatric inpatient hospital between 7/1/13-6/30/14, that were not admitted to or discharge from a forensic unit. The total number of discharges includes individuals treated only for substance abuse disorders, as well as individuals treated for both substance abuse and mental health disorders and those treated for mental health disorders only. Transfers are not counted as discharges. A discharge is counted if the person has been discharged for more than seven days without a readmission, and if the discharge status does not indicate a transfer. Readmissions are counted if they occurred greater than seven days after a discharge, and if the discharge status does not indicate a transfer.
21	This table includes all persons discharged from a state psychiatric hospital or a psychiatric inpatient hospital between 7/1/13-6/30/14, that were not admitted to or discharge from a forensic unit. The total number of discharges includes individuals treated only for substance abuse disorders, as well as individuals treated for both substance abuse and mental health disorders and those treated for mental health disorders only. Transfers are not counted as discharges. A discharge is counted if the person has been discharged for more than seven days without a readmission, and if the discharge status does not indicate a transfer. Readmission is counted if they occurred greater than seven days after a discharge, and if the discharge status does not indicate a transfer.
