Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age Data is based on admit age.
 Overall The Division of Behavioral Health does not fund other psychiatric inpatient stays nor stays in residential treatment centers for children, therefore data is not available for these two settings.
 Gender None

Table 6 State Notes:

Hospital Although the Division of Behavioral Health does not fund these services, the State Hospital is willing to provide data needed to report to CMHS and SAMHSA as part of the URS Tables. See General Notes.
 Other Inpatient The Division of Behavioral Health does not fund other inpatient services, therefore data is not available.
 Residential The Division of Behavioral Health does not fund residential treatment, therefore data is not available.
 Community None
 Overall See General Notes.

URS Table Number	General Notes
6	Although the Division of Behavioral Health does not fund these services, the State Hospital is willing to provide data needed to report to CMHS and SAMHSA as part of the URS Tables. In Fiscal Year 2014 the average length of stay amongst adults and children increased compared to past years due to long term clients discharging as part of policy and procedure changes within the State Hospital.
12	The Division of Behavioral Health is working with providers on implementation of screening and assessment tools to improve identification of individuals with dual diagnosis of mental illness and substance abuse. As providers are not currently required to submit both diagnoses for reimbursement purposes, the Division cannot report accurately the number of individuals with a co-occurring diagnosis. The Division continues to work with providers on capturing this important information.
14A/14B	State definition of SPMI: The consumer's severe and persistent emotional, behavioral, or psychological disorder causes the consumer to meet at least one of the following criteria: (a) The consumer has undergone psychiatric treatment more intensive than outpatient care and more than once in a lifetime, such as, emergency services, alternative residential living, or inpatient psychiatric hospitalization; (b) The consumer has experienced a single episode of psychiatric hospitalization with an Axis I or Axis II diagnosis per the DSM-IV-TR as defined in § 46:20:01:01; (c) The consumer has been treated with psychotropic medication for at least one year; or (d) The consumer has had frequent crisis contact with a center, or another provider, for more than six months as a result of a severe and persistent mental illness; and (2) The consumer's severe and persistent emotional, behavioral, or psychological disorder meets at least three of the following criteria: (a) The consumer is unemployed or has markedly limited job skills or poor work history; (b) The consumer exhibits inappropriate social behavior which results in concern by the community or requests for mental health or legal intervention; (c) The consumer is unable to obtain public services without assistance; (d) The consumer requires public financial assistance for out-of-hospital maintenance; (e) The consumer lacks social support systems in a natural environment, such as close friends and family, or the consumer lives alone or is isolated; or (f) The consumer is unable to perform basic daily living skills without assistance.
14A/14B	State Definition of SED: Severe emotional disturbance defined. An individual with a serious emotional disturbance is an individual who: (1) Is under eighteen years of age; or is between 18-21 years of age having received services prior to the age of 18; (2) Exhibits behavior resulting in functional impairment which substantially interferes with, or limits the individual's role or functioning in the community, school, family, or peer group; (3) Has a mental disorder diagnosed under the Diagnostic and Statistical Manual of Mental Disorders, fourth edition revised, 1994; (4) Has demonstrated a need for one or more special care services, in addition to mental health; and (5) Has problems with a demonstrated or expected longevity of at least one year or has an impairment of short duration and high severity.
17	Community mental health centers are improving the delivery of integrated treatment. Individuals with co-occurring issues are able to receive services within their own community, rather than having to move to an unfamiliar service provider to receive the services they need/want. The Division is hopeful that this shift in philosophy and service delivery provides a more welcoming, respectful and hopeful atmosphere for individuals and families receiving services.
