Wyoming

URS Table Number	General Notes
6	The median LOS continues to decline as those that are discharged have shorter stays, while the median LOS for those staying longer than 1 year increase, as those with long stays continue to remain in the facility.
9, 11, 11A	Functioning data is not available because the questions were not asked on the survey this year. Survey was done in-house and process was slightly changed this year. Survey was adults only - no participants were under the age of 18.
10	Wyoming does not gather their grant totals by diagnosis; therefore no dollars are entered in this section.
12, 14A, 14B, 15A	With dedicated training, WY providers have made increased effort to improve the accurate documentation of SED, SMI and SPMI clients.
19A, 19B	With dedicated training, WY providers have made increased effort to improve the accurate documentation of criminal justice data/school attendance data. Data for these measures (Number of Persons Surveyed or for whom Criminal Justice/Number of Persons Surveyed or for whom School Attendance Data) were not done through a survey, but through the state system and survey questions are not applicable.
20A, 20B, 21	The total numbers of readmissions to the state hospital are small and any changes from one year to the next cause large percentage changes.
